Beaver & Gephart

Bellefonte Republican

Established in 1869.} "Let us see to it that a Government, of the People, for the People, and by the People, shall not perish from the Earth."---A. LINCOLN. {Terms: $2.00 per annum

VOL. XVIII. BELLEFONTE, PA., THURSDAY MORNING, AUGUST 12, 1886. NO. 32.

Bellefonte Republican.
By EDWARD T. TUTEN.

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

REPUBLICAN STATE TICKET.

FOR GOVERNOR,
JAMES A. BEAVER.
OF BELLEFONTE.

FOR LIEUTENANT GOVERNOR,
WILLIAM T. DAVIES.
OF BRADFORD COUNTY.

FOR AUDITOR GENERAL,
A. WILSON NORRIS.
OF PHILADELPHIA.

FOR SECRETARY OF INTERNAL AFFAIRS,
THOMAS J. STEWART.
OF MONTGOMERY COUNTY.

COUNTY TICKET.

FOR CONGRESSMAN AT LARGE,
EDWIN S. OSBORNE.
OF LUZERNE COUNTY.

EDITORIAL BRIEFS.

EVERY Republican should register at once.

How happy we should be! Congress has adjourned.

A FOREIGN atheist was denied the privilege of naturalization last week.

SEND Sullivan to Mexico to attend to those impudent fellows who arrested Cutting.

GLADSTONE receives 20,000 letters a year, to all of which he gives his special attention.

VICKSBURG, Miss., and Shamokin, Pa., are raising volunteer companies to fight Mexico if needed.

WM. A. WALLACE is again a candidate for Governor. He renews his candidacy about once a week.

DESPITE the fact that the Congress just adjourned, was a reform(?) Congress, it was the most expensive for five years.

ACCIDENTS at sea, involving loss of life, are so numerous as to lead to the belief that carelessness is one of the causes.

ALTHOUGH Spies figure conspicuously in that Anarchist trial in Chicago, they have not yet discovered who threw the bomb.

H. W. BEECHER, son of Henry Ward Beecher, is a true chip of the old block. He is charged with retaining money entrusted to his care.

REPUBLICAN Representatives gave Democratic Speaker Carlisle a silver table service costing $600. The Democrats did not give him anything.

Now, that a very weak Democratic county ticket has been nominated, let the Republican convention seek to put the strongest possible ticket in the field.

FOR five years past Mr. Tilden was not able to speak above a whisper because of paralysis of the muscles of the throat. But his mind was clear and active to the last moment.

IT turns out that Cutting, who is developing into a large-sized issue between this country and Mexico, is an Ohio man. An Ohio man always gets into trouble sooner or later.

ISN'T it a little bit strange that the English Parliament reassembled the same afternoon that the American Congress adjourned? It was much like transferring a nuisance from America to England.

MRS. CLEVELAND'S photograph has been taken in twenty different styles. Now let some statistician give us the figures in regard to Mrs. Langtry, Maud Branscombe and other professional beauties, so we can see who is ahead.

"AND now the Nation breathes easier," is the remark of a thousand or so papers when Congress adjourns. Doubtless that is true, for the work of legislation concerns everybody, and the people feel a weight of responsibility while Congress is in session. Still that responsibility is a proper one that can never be gotten rid of by a free people. Congress represents the people and it is right that the people should be kept busy instructing and influencing their representatives while Congress is in session. When it again convenes let us all pitch in to make it do some of the things it neglected to do last session, and especially let us compel it to do something for the development of our South American trade.

Labor and Capital.

If the labor agitation question can be discussed and directed by the partisans of both sides with wisdom, and in the spirit of conservative liberality, there may grow out of the controversy a re-organization of conjunctive labor and capital which will prove of permanent benefit to all classes of the people, and make less fluctuating the business interests of the country.

The workingmen, and the friends of labor, make a great mistake however in supposing that they can accomplish any lasting good by the violence of "strikes," and by their sudden demands for increase of wages. Public sympathy may at times be secured by momentary impulse, but a general public opinion in this country must be gained by solid argument and a right sense of things.

If there is not a natural antagonism between capital and labor it has certainly been allowed to obtain by custom, by arrogance on the one side and submission on the other.

It cannot be denied that on their side the laboring classes, as a whole, have the serious disadvantage of ignorance illiteracy, and unreasoning selfishness. It is true there are noble exceptions, but these exceptions are neither numerous nor strong enough to control the masses. It is true also that these classes are not now what they were in the ages past, for now they are in the process of active evolution reaching towards intelligence, education and culture. It is a critical period, made by this new movement for the adjustment of social forces and conditions.

Ever since the world grew out of its pastoral life, and men became cunning workers in brass, copper, gold, and in all artizan industries, capital has held the fort of advantage over labor, because money is the root of supply for all human necessities. Men who have money *can* live without being compelled to build shops, and factories, and to hire others; men who have no money *cannot* live without being employed by those who have money. Just here the inequality begins, and it continues on with advantages to the capitalists through all the relations of the employer with the employed, of capital with labor, of plenty with necessity, of the *Vaissya* of wealth with the *Sudras* of poverty.

Money can buy influence, position, and lift vulgarity into the circles of refinement, and the snob into the *caste* of aristocracy. But what is still worse for the American working classes is the discreditable political fact, that money can purchase discriminating legislation favoring monopolies and the selfish exactions of wealth.

Such are some of the stronger weapons of capital as against all the demands of labor founded upon the simple plea of right and justice; and the advantage is yet on the side of capital, and will be until public opinion shall recognize, and come to the aid of, the humanity, or law of brotherhood which underlies and gives strength to this struggle for bettering the condition of the poor toilers in every department of human endeavor.

In their efforts to raise themselves to a higher plain of life, that mistakes will be made by the various organized labor associations must be expected; but discussion, experience and necessity will finally evolve the right expedients for harmonious adjustment. Capital will have to modify its tone of superiority, and labor will have to modify its unthinking anarchial violence, and submit to the direction of reason and law.

When trying to solve the problem of rightful compensation for labor performed, one of the most serious mistakes of the workingmen is: that they calculate their time equal in value to the time of their employers. The adjustment between labor and capital can never be made on this scale. To suppose, because a man gives the same number of hours, or days, in the manual labor of a shop, or factory, or on a railroad, as his employer devotes to its management, that he is therefore entitled to an equal division of profits is simply a delusion.

The employer is the capitalist, or representative of capital, and it is the money that lies behind all business enterprises which prepares the way, and first makes possible the employment of working hands in the various departments of industry. And it is just here where capital works the distinction, and will ever maintain the distiction between the men who hire and the men who are hired. All business interests of magnitude, in their successful establishment and prosecution, require much more than money, and much more than the mechanical use of nerve and muscular force. Mechanical arts in all branches, are the results of scientific knowledge, experiments, and of educated mental abilities; and these faculties and capacities are not found in the uneducated masses—they are the results of the facilities and leisure for acquiring knowledge that money alone affords. So, the rights of labor can make no demands upon the profits or results, that pertain to this most potent factor of the world's industries.

While this is true it does not deny to the simple hewers of wood and drawers of water "living wages for their services, nor to the skilled workmen, or artizans, the increased pay which their superior knowledge and abilities entitle them to receive; but it does settle the question that above the simple manipulations of work—that above the value and all claims of money, there exists the grander field of thought, science, investigation and experiments forever holding the helm of human progress. This fact must be understood and acknowledged before the labor movements of this country can be put upon an intelligent and rational basis.

When a noted artist in Paris was complained of for charging fifteen hundred francs for a picture which he painted in one day, he replied: "Yes, but it took me fifteen years to learn to paint that picture in one day." Working men should also consider that the vast factories, furnaces, and all enterprises which are established to afford them work, are the outgrowths of ages of the world's study, experiments and progress.

In bringing the question to this standpoint we do not wish to be understood as asserting that the laboring classes have no cause for complaint, or as apologizing for the oppressions of monopolies. We merely desire to bring this discussion to the plane where it belongs—to the simple question: for certain hours of service what shall be the rightful compensation? With the capital invested, or the science talent, and enterprise involved in the prosecution of the business, the man who works under direction of the management has nothing to say. Honest pay for honest work is all he can require.

It is to be admitted, and is greatly to be regretted, that the workingmen of the United States labor too much, and receive too little pay. It is to be admitted, and regretted also, that the disposition of our large incorporated monopolies is to overtax and oppress the working classes of both sexes. Wealth leads to aristocracy, and aristocracy demands unquestioning and obedient servants.

Let the men who work, therefore, and the working women, do all they can within the limits of reason and law, to force from their employers a just and equitable compensation for their labor, and, without attempting to change the relative social conditions of these two classes, represented by work and wealth, let them strive to organize themselves into a new order of social progress, and by the cultivation of their manners and minds endeavor to bring themselves into a higher state of refinement and enjoyment, and they will thus lessen the lamentable inequalities between labor and capital.

HIRAM TORREY.

Tilden.

Samuel Jones Tilden, who died on the 3d, was indeed a great man. His mind was a brilliant one, his will power strong and he was enabled to accomplish great reforms. He was worthy to occupy the position of leader among men. We feel that the country, in his death, has suffered a great loss.

We regret, however, that his death has caused so many of our Democratic contemporaries to reprint again that evil story that Tilden was elected President of the United States in 1876. Be content to publish the truth about the eminent statesman, but do not try to go beyond the truth.

We believe that Mr. Tilden was a good man and in his last eternal sleep he will "rest well." His immortalized spirit is doubtless whispering in the ear of every faithful Democrat to forsake the evil of his ways and to become a good Republican.

ONE of Tilden's last letters was to Gen. Hawley, requesting from that gentleman a copy of the report on Coast Defences. In it he said, "The apathy of Congress on this subject would be incredible if it did not confront us. It contrasts with the favor that is shown to schemes of prodigality and schemes to waste the public resources on things known to be absolutely useless. Among the people the desire for liberal appriations towards the means of public defence is well-nigh unanimous. More than 700 papers, containing expressions upon the subject, have been sent to me."

THE Oleomargarine bill and the River and Harbor bill both received the approval of Mr. Cleveland and now they are laws. The River and Harbor bill appropriated $14,473,900 and is the largest ever approved by a President.

Gov. Curtin's Speech on the Labor Question.

During the last day of the session of the late lamented Congress, ex-Gov. Curtin began the delivery of an important speech relative to the work of the Labor Investigating Committee, of which he is chairman. As the time for adjournment was near he asked permission to extend his speech in the *Congressional Record*, which permission was granted. Among other things, Gov. Curtin's speech contains the following:

"If the allegations be true that syndicates have been formed, large properties in the coal regions purchased, so that the individual enterprises of those who with a limited capital engaged in profitable mining have had to be abandoned; if the allegation be true that the wages of labor are inadequate to living and that the railroad companies are connected with them and the oppressed laborers have to purchase from the stores and warehouses of the companies all their supplies needed for the support of themselves and families—if this be true it is a subject to engage the serious consideration of this government. If it is not true, it is eminently proper that the public should know it and the unrest which is now so prevalent throughout the country should be settled. It would be very improper to do injustice to the carrying companies of the country.

It is very improper that allegations should be seriously made of that kind and remain uncontradicted if not true; and if true, it is an oppression to the laboring men of this country which this Government should redress.

* * * * * * * *

"The men who labor in this country have been more happy, contented and prosperous than the laborers of other lands. They have received a larger compensation, enabling them to live in greater comfort than those engaged in similar pursuits elsewhere. They posess a higher intelligence and are better fitted for the discharge of the responsible duties of citizenship of a great republic than any similar population that ever existed in any country in any age. We have no classes here; and the great prizes of life are open to them as to other citizens, and from among their number have come leaders of thought and action. For the past few years, however, they have not been happy, contented and prosperous as in the past. Thousands of willing hands have been idle; distress and suffering have been widespread. What is the cause? Is it not the part of true statesmanship, the duty of the representatives of the people to strive to discover the cause of this unfortunate state of affairs, and when discovered see if it cannot be removed. They ask such action; shall their prayer be unheeded? They are the foundation on which this government rests, the creators of wealth, and with their welfare is linked the welfare of all the citizens of this country.

"Mr. Speaker, there never has been presented a movement of the magnitude of this for the reconciling of labor and capital. They should be in perfect harmony throughout the land, so that no man could look over the diversified interests of the labor of this country with an apprehension as to the future. In the presence of calamities that may occur it is highly proper that this government should inquire into this question, and, if possible, to relieve their condition and reconcile their differences that now exist between capital and labor that ought not to exist. It was my expectation, sir, that this committee might report such facts and come to such conclusions as would induce this government and the government of States to expend their power and relieve the oppressions that may exist and reconcile any public differences that ought not to occur, and this resolution extends that power and adds new responsibility to that committee. Now, Mr. Speaker, there ought to be no differences between labor and capital in this country, and under this impression we propose to ask that this House should enlarge the powers of this committee."

GOVERNOR CURTIN should feel proud of the honor done him by the Democratic House. It authorized his special Labor Investigation Committee to sit during the recess, but failed to provide the funds for necessary expenses. As it has only about a thousand dollars of the former appropriation in hand, its labor must necessarily be brief.—*Pittsburg Chronicle-Telegraph.*

(Contributed.)

A Departed Guest and His Military Career.

As the REPUBLICAN made mention of the arrival in Bellefonte of one of Indiana's honored citizens, about ten days ago, in the person of Gen. Milo P. Hascall, who came here for medical treatment by one of our prominent physicians, and was sufficiently improved to leave for his home on Friday morning, doubtless a brief sketch of this gentleman's record as a citizen and soldier, as gathered from him, will interest your readers.

At the age of 17 he went from his native State (New York) to Goshen, Elkhart county, Ind., to live, and that place has ever since been his home. In June of the next year, 1848, he was appointed a cadet to West Point, and graduated June 16, 1852. In his class were also Generals Sheridan, Stanly, Crook, Slocum, Bonaparte and several others whose names have since been very prominent.

He remained in the regular army until September, 1853, when he resigned his commission in the army and returned to civil life. He then studied and engaged in the practice of law, until the outbreak of the Rebellion in 1861. This induced him to relinquish a handsome income and he enlisted immediately after the call for 75,000 men, as a private, and passed rapidly through the grades of captain, colonel, etc., to that of Brigadier General. From early in 1862 he was constantly engaged in the Army of the Cumberland and of the Ohio, as a commander of a brigade.

He was present as captain and aide-de-camp at the first engagement of the war (after firing on Sumpter) at Philippe, West Va., June, 1861. There was captured the first Rebel flag. Capt. Hascall was the bearer of it to Gen'l McClellan at Cincinnati, together with the official account of the engagement.

While he was serving as colonel of the 17th Indiana at Clear Mountain, and Elkwater in September, 1861, his regiment killed the notorious John A. Washington (the man that sold Mount Vernon to the U. S.) who was at the time lieutenant colonel on Gen. Lee's staff. On this occasion Colonel Hascall received the first flag of truce that Gen. Lee sent during the war, when he sent into our lines after the body of Washington.

Afterwards, at the battle of Shiloh, he received the first flag-of-truce Gen. Beauregard sent during the war, when he asked permission to bury the Rebel dead. At the battle of Stone River Gen. Hascall commanded the extreme left, after 10 o'clock of the first day, which was the only portion of the line from which our troops were not driven.

He commanded a division all through the East Tennessee campaign under Gen. Burnside, and during the Atlanta campaign he had one division of the Army of the Ohio in command under Gen. Schofield, taking a prominent part in all those movements of the army during the late war.

Before the war he was a member of the delegation from his State to the Republican National Convention that nominated Abraham Lincoln for President in 1860. Since the war he has been three times on the ticket for Presidential elector, and the last was during the late Presidential election, when he was one of the electors-at-large for Blaine.

In business, since the war, he has engaged in the banking and wholesale lumber interests, and is said to have a very handsome income and does much in aiding to improve the condition of his town.

He was recently married to Mrs. Milton, the accomplished and handsome lady who, two years ago, visited Dr. Rhone's family and the family of C. T. Gerberich.

THE Tories have come to grief in their first maneuver. In forcing the appointment of Henry Matthews, an English Catholic, as Home Secretary, it is believed that Lord Randolph Churchhill had in view a scheme to wean the Irish Catholic hierarchy from the Nationalist party by means of grants to Catholic education and reforms in the university system favorable to Catholic interests. The effect, however, has been to stir up religious prejudice to such an extent that it is thought that Matthews will lose his seat. His appointment necessitates his re-election and the Birmingham Liberals have put up a candidate against him, with a strong prospect of defeating him.

REPUBLICAN success this fall, in the State and county, is certain.

GENERAL NOTES.

A world's fair will be held at Adelaide, Australia, next June.

"Nothing but the air admitted free" is a notice in one Chicago theatre.

A tea gown of pansy plush is lined with pink silk the tint of a blush rose.

Seven-eighths of the peppermint of the world is raised in Wayne county, N. Y.

In a match against another juvenile, a Meadville boy ate six bananas in two minutes.

Wheat is the only crop which can be produced in Southern California without irrigation.

The First Presbyterian church, of Hackettstown, N. J., has just celebrated its centennial.

It is claimed that within a radius of 100 miles around Ashville, N. C., every mineral can be found.

B. F. Iams, of Oil City, has a crab apple tree which is at the present time in fruit and in blossom.

The annual production of sewing machines allows one for every 300 civilized people on the globe.

Note paper has "At the Seaside," "In the Mountains," and other like headings in raised silver script.

Four homing pigeons released in New York reached New Haven, eighty-seven miles distant, in 67 minutes.

Hand-looms for weaving cloth for bathing costumes, and other useful purposes, are the latest English novelty.

Philadelphia institutions have suffered an aggregate loss of $3,000,000 in 5 years by thieving cashiers, clerks, etc.

The new mail route to Cuba going to Tampa, Fla., by rail, thence to Havana steamer, shortens the time two days.

There are 200,000 Italian settlers in the Argentine Republic, 82,000 in Brazil, 40,000 in Uraguay, and 6,000 in Mexico.

An Irish ship, manned by Irishmen and with a shamrock flag at the maintop, sailed up the Chesapeake the other afternoon.

The President is always noticeably kind to the old ladies who attend his receptions, showing them more attention than others.

King Ludwig, of Bayaria, used to drink white wine and champagne flavored with fresh violets. He often spent $50 a day for the violets.

An 18-year-old boy in New York who volunteered to drink all the whiskey another could pay for, drank 11 glasses and then dropped dead.

The chamber in the White House occupied by President Garfield after he was wounded, has, it is said, never been opened since he left it.

As proprietor of Bablesburg Castle, like any of his subjects, the German Emperor is under the law liable to have soldiers quartered upon him.

The number of ocean steamers arriving at Montreal from the opening of navigation to August 1 was 248, an increase of 42 over the same time last year.

At Ocean Beach there are no bars, but liquor is served at meal times at the hotels in kind and quantity to suit the guests, but only for consumption at the meal.

A New London oyster dealer has invented a dredge with which starfish, the greatest enemy of the oyster, can be taken from the bed without disturbing the oyster.

An Iowa gentlemen has increased the circulation of his paper by periodically presenting each subscriber with a check, good at any local drug store for a glass of soda water.

A Hamilton, O., policeman walked up to a young man on the streets and asked his name. "What is your name?" said the young man, whereupon he was arrested. Such is justice.

When an Elkhart, Ind., farmer was unloading a load of hay which he had driven to market and sold, he found a very lively rattlesnake in the hay, and in the serpent he found two meadow moles still alive and kicking.

The first city in Europe where electricity has been entirely substituted for gas for street lighting is the town of Hernosand, in Switzerland. The motive power is water, which is very plentiful there, rendering the light cheaper than gas.

August Langlois, a farmer of Pointe Aux, Aux Tremcles, while feeding his fowls a day or two ago, was attacked by a game cock. In lifting his hand to push the bird away, it was pierced by the bird's spurs. Langlois died after suffering terribly from lockjaw.

Cavalry regiments in the Prussian army are being carefully drilled in the art of swimming their horses across rivers. The feat is said to be performed with the utmost precision and rapidity, whole regiments crossing and recrossing in an astonishingly short time.

Mt. Vernon does not pay. This year the association finds itself exactly $1,964.82 in debt. As a patriot and a soldier General Washington was an entire success; spectaculary his tomb is a failure. When Americans are in pursuit of ruins or relics they go to the Old World.

An electric eel, three feet in length and weighing seventy pounds was caught by fishermen in a net off Gravesend Bay and brought to Fulton Market, New York, on Wednesday, where it has been giving shocks more or less severe to a crowd of curious sightseers. Electric eels are rarely taken in Northern waters.

The barn of Samuel Sollenbarger, in Letterkenny township, Franklin county, was burned to the ground on Saturday morning, with all its contents except one buggy. In the barn were four horses, eight cows, 200 bushels of wheat, over 300 bushels of rye, thrashed the previous afternoon, many tons of hay, some new wheat, reaper, wagon, drill, harness and farming implements. The loss is nearly $4,000, on which there is no insurance.

Poetry.

FACE TO FACE.

BY PAUL H. HAYNE.

Sad mortal! couldst thou but know
What truly it means to die,
The wings of thy soul would glow,
And the hopes of thy heart beat high;
Thou wouldst turn from the Pyrrhonist schools
And laugh their jargon to scorn,
As the babble of midnight fools
Ere the morning of Truth is born;
But I, earth's madness above,
In a kingdom of stormless breath—
I gaze on the glory of love
In the unveiled face of Death.

I tell thee his face is fair
As the moon-bow's amber rings,
And the gleam in his unbound hair
Like the flush of a thousand Springs;
His smile is the fathomless beam
Of the star-shine's sacred light,
When the Summers of Southland dream
In the lap of the holy Night;
For I, earth's blindness above,
In a kingdom of halcyon breath—
I gaze on the marvel of love
In the unveiled face of Death.

In his eyes a heaven there dwells—
But they hold few mysteries now—
And his pity for earth's farewells
Half furrows that shining brow;
Souls taken from Time's cold tide
He folds to his fostering breast,
And the tears of their grief are dried
Ere they enter the courts of rest;
And still, earth's madness above,
In a kingdom of stormless breath,
I gaze on a light that is love
In the unveiled face of Death.

Through the splendor of stars impearled
In the glow of their far-off grace,
He is soaring world by world,
With the soul in his strong embrace;
Lone ethers, unstirred by a wind,
At the passage of Death grow sweet,
With the fragrance that floats behind
The flash of his winged retreat;
And I, earth's madness above,
'Mid a kingdom of tranquil breath,
Have gazed on the lustre of love
In the unveiled face of Death.

But beyond the stars and the sun
I can follow him still on his way,
Till the pearl-white gates are won
In the calm of the central day.
Far voices of fond acclaim
Thrill down from the place of souls,
As Death, with a touch like flame,
Uncloses the goal of goals;
And from heaven [heavens above
God speaketh with bateless breath—
My angel of perfect love
Is the angel men call Death.

CLOUD PICTURES.

I look far away
From over the bay
Where the clouds are so thin and tender,
To the gleaming light
Of the sunset bright
Flashing all with its golden splendor.

High up in the air,
Toward a castle fair,
With its turret and castle and dome,
Is an angel form
On the light breeze borne
To its beautiful shadowy home.

On a cloud afloat,
A fairy-like boat
Seems sailing forever and ever;
Like a phantom seen
In some happy dream
Is that wonderful, shoreless river.

A high golden crest
Looms up in the west;
A gate, set with pearls, is now swinging.
The shadows fly past
Through that portal vast,
To the Sun their tribute all bringing.

As night bends over
Like a proud lover,
And kisses to rest the fair earth,
I sit and ponder
Over the wonder
That in fancy has all had its birth.

Thus, in Lethe's wave
My soul I can lave,
And leave, for a time, the stern real,
I scorn cold duty;
I crave the beauty
That comes only in life's ideal.

GEORGIA BURLEIGH.

THE INGREDIENTS.

A scant square foot of flannel blue,
Some ribbons white,
A tassel and a bow or two
Of colors bright.

Some appertures where arms go through,
Which ribbons deck;
A vacant space in which to view
A snowy neck.

A taper waist that is laced in
Tight as can be;
A pair of trousers that begin
Above the knee.

A jaunty cap of colors, bright
As dreams oft dreampt,
And stockings that an anchorite
Would surely tempt.

A smile so sweet that for its sake
Yourself would shoot;
These articles all go to make
A bathing suit.

Our Story Teller.

How and When to Sow Wheat.

The great wheat crop of the United States, in 1884, of 513,000,000 of bushels, produced in a country with a population of 50,000,000 of people, making an average of ten bushels for every man, woman and child, or twice the amount consumed, is a fact that in itself, to one not cognizant of the extent of our country, would suggest the idea that we either made a specialty of wheat, or had practically answered the questions that head this article. But by dividing this immense crop by twelve, the average number of bushels raised on one acre, and finding that it required over 42,000,000 of acres to produce it, is it any wonder that foreign agriculturists, who visit our country to study our methods of farming, leave our shores with the bitter but just criticism that they have nothing to learn from us, but we from them? We are certainly raising enough of wheat. Had the crop of 1885 been an average crop, with 85,000,000 of bushels on hand from the preceding year, we would have found a worse glutted wheat market for another year.

Experience, however, teaches not to stop planting a crop that is depressed in the markets, but the reverse. The majority of farmers aim to plant most of those crops that are booming in the market, no one taking into the account that others are doing the same, and that by the time these crops are harvested the boom is on the other side. The proper adjustment of these irregularities is to not stop raising wheat, or less of it; but to raise our average crops on one-half the present acreage. I believe this is possible, by applying the same amount of labor upon one-half the number of acres in preparation of ground that is applied to all at present, by an intelligent application of manure to every acre sown, by a careful selection of seed, and by a strict rotation of crops. It is true, paying crops are being raised upon the wheat fields, from California to Minnesota, annually, without manure, but they are already beginning to fail, and if this system of special cropping is continued upon the corn and wheat lands of the West and North, the time is coming when they will be classed among the exhausted lands of the United States, as the cotton and tobacco lands are now in the South. To verify the system I propose, I will give my experience on a seven-acre field, sown in wheat October 7, 1882. The ground is a heavy limestone clay, having produced a crop of oats and corn previous to having been sown in wheat. The labor was charged at the rate of $2.50 a day for a team and hand.

Preparation of ground and sowing	$35 00
12¼ bushels of seed at $1.50 a bu	12 86
Harvesting and putting in barn	13 00
Threshing 252 bushels at 10c ⅌ bu	25 20
Interest on land at $100	42 00
Taxes	2 80
One ton sea-fowl guano	40 00
Cr. 252 bu. wheat sold at $1,18	$297.39 $170 86

With a crop of twelve bushels to the acre, it will cost $1 a bushel to produce it. The expenses were apparently high in this instance, yet the wheat was grown at a cost of 67½c a bushel, or a profit of $18 to the acre, with the best stand of grass I ever saw, there being more profit on the grass than on the grain.

Those who rotate their crops always seed to grass when sowing wheat, and have never missed obtaining a good catch, when using mineral fertilizers or top-dressing with manure. Horace Greeley said in his day that the man who made two blades of grass grow where one grew before was a benefactor of his race. My experience is that manuring and fertilizing give all the profits in raising wheat, and will cause four blades of grass to grow where one would grow without them. By raising our average crops on one-half the present acreage, this would give in the United States twenty million acres of just such grass land clear and taxes paid, on which would be realized a clear profit by raising stock, and a saving of 35,000,000 to 40,000,000 bushels of seed wheat, which would lift the burden of depression that is now resting upon the farming interests of this country. Grass means manure, and under this system of farming the land is improving in fertility while lands producing twelve bushels of wheat or less to the acre, and this one blade of grass, are running down.

Before sowing wheat remove all loose stumps, large stones and rubbish. There may be some wet places; these it will not pay to manure, as it would only be a loss of time, labor and manure. I would not advise A. W. Cole's system of "New Agriculture" in draining, yet it frequently happens that these places can be drained cheaply. There is certainly a loss in preparing and sowing such places, and the best way to stop this is to drain them. One crop of wheat and two of grass will frequently pay the expense, besides removing an eyesore to the farmer who prides himself on his uniform fields of grain.

Next examine all the souces which will augment the manure. There is no doubt that considerable money is expended on commercial fertilizers when equally as good may be found wasting upon the farm. I will give briefly my experience of manures used and their application. These are green manuring, stable manure, home-made and commercial fertilizers. Green manuring is not to be prepared, unless it is on worn-out lands deficient in vegetable matter. There is no loss and considerable gain in feeding the crop of clover and applying the manure. Stable manure under shelter, from animals fed clover hay and grain, is rich in nitrogen, an important element in the production of wheat. I put this manure upon those fields or parts of fields that I think are deficient in vegetable matter, by hauling it to the field before placing in piles extending in parallel lines the way I wish to plow, and scatter over plowed ground as the plow advances to them. Thoroughly mixing this with the soil prevents the escape of ammonia to the air, keeps the manure near the surface, and will cover twice the ground with equal effect to plowing in or under. Unrotted manure I plow in. Farmers keeping 150 to 200 fowls should save the equivalent in manure of one ton of the best fertilizer in the market. I have prepared a home-made fertilizer, at a trifling expense, from leaf mould from woods, ashes and hen manure, pulverized and run through a screen to take out any lumps or stones that would clog in drilling, and it gave splendid results drilled in with the wheat.

In applying commercial fertilizers it is necessary to have some knowledge of the elements on which plants feed, and which of these is deficient in soil. The first can be obtained from some work or agricultural chemistry, after which the reader will be better prepared to find out the second from actual experiments on the farm. The following statement is taken from Johnson's Agricultural Chemistry. It gives the exact organic elements, and ash, contained in 1,000 parts dried at 230 Fahreneit:

	Clover Hay,	Oats.	Wheat,	Potatoes.
Carbon	507	507	455	441
Hydrogen	66	64	57	58
Oxygen	389	367	431	439
Nitrogen	38	22	34	12
Ash	not stated	40	23	50

It will be seen from this statement that 97.7 of the wheat consists of the four organic elements, and 2.3 per cent, of ash—inorganic. If the wheat be burned, the first four will escape into the air in the form of gas, and become free, showing conclusively where the supply comes from. Nature has supplied these elements in abundance, and like in electricity we must wait the developments of such men as Franklin, Morse and Edison to utilize them. More than three fourths of all the air we breath is nitrogen, and yet it is the most expensive plant food we buy. A high grade of fertilizer containing 4½ per cent. of nitrogen would cost in itself $27 a ton. We are buying these fertilizers in increased quantities every year, and it is important to understand the analysis printed on sack or barrel, the value of each ingredient, and then buy to suit the soil and crops.

I have frequently been told that mineral fertilizers would impoverish the soil. Yes, by raising two bushels of wheat with the use of them, to one without them, followed year after year, without rotation of crops, and sowing to clover, you will exhaust the soil in nearly half the time you would without them. While these fertilizers contain plant food in themselves, they, like lime, utilize that which is in the soil; yet we never heard of lime being condemned for having this property. Lime is so well known in the older countries of Europe that this property has found its place in the following maxim: "Lime, without manure, will make the parents rich and the children poor." But with a rotation of crops, and sowing to clover, the tap-roots penetrating the subsoil and bringing plant foot to the surface, and drawing upon the organic elements of the air through its leaves, the soil will become richer and so will the farmer.

One man will tell you to plow deep, and another shallow; one will advise sub-soiling, and trenching, and another condemn them. The gist of this depends upon the depth of soil and nature of sub-soil. Frequently different fields on the same farm, and sometimes parts of same field, should be plowed at different depths. The practical man will aim to deepen his soil, but he will be cautious about trenching and throwing a great amount of sub-soil to the surface, before considering its properties, and using sub-soil plow. Such soils frequently contain substances decidedly noxious to vegetation. There is less danger on lands that were at one time fertile, but exhausted by special cropping and shallow plowing. These lands are mostly cropped on the shares. Such a farm adjoins mine, and I observed a boy plowing one of these fields for wheat, on which three half crops had been taken in succession. The ground was dry and hard to plow. After a few rounds of skips and catches, he unhitched, procured a tripletree and put in three horses. The weight of tripletree and doubletree made his plow—it not having a wheel,—throw up from four to five inches of a good limestone sub-soil. He thus brought to the surface lime and plant food buried beyond the reach of the wheat plant, and the result was a good crop of wheat. That same field has produced better crops ever since. A good plowman does not turn his furrows the greatest possible width, but aims to edge them, by cutting narrow.

Early plowing will win all the time for wheat. Some object to easy plowing of oat stubble, as the oats will come up and choke the wheat; but oats cannot live on ground properly prepared for wheat. The harrow should follow the plow closely. Having only one team, what is plowed in forenoon should be harrowed in afternoon. This is necessary to retain the moisture, as two clear days in the fall are sufficient to dry unharrowed ground to the bottom of the furrow. Winter wheat requires a solid sub-bed. This is obtained by early plowing, giving soil time to settle, and by harrowing, rolling and dragging. As to the kind of harrow, every many has his hobby, and I will not advise; but of all the farming implements this should be the best of its kind and kept in the best of order. I have seen some of the old-fashioned square harrows in use that showed places for twenty-four to thirty teeth, containing little over one-half that number, and if it had not been for the hitching chain you could scarcely tell which side to turn down. A good sharp harrow will do more effective work with one harrowing than such a one would with three. I harrow, roll and drag until I get a good seed bed, with all large clods broken. If I have enough of fine soil, with solid seed bed, I do not object to small clods; they are a protection in march to the thawing and freezings that are common in that month. Small clods having a perpendicular edge will crumble about the exposed roots and protect them, while large clods will smother plants. Hence the objection to rolling after seeding. A smooth, hard surface is the worst possible condition that wheat can begin the winter. The chilled metal plows are a great improvement, cleaning in any soil, and seldom breaking a point. By turning plow upside down, keeping point solid, and placing a stone under to resist the stroke of hatchet, you can dress a point once, and make it as good as new. A little practice is all that is required.

Too much care cannot be exercised in selection of seed. Carelessness on this point will reduce the yield, weight, quality and price of the coming crop. It frequently happens that in harvesting the wheat crop there are certain parts of the field where the grain is uniform in height, size of head, plumpness of grain, and brightness of straw; this should be saved for seed, if no better precautions are taken, and screened before sowing. There are some varieties of winter wheat that withstand the winter better than others. Of such grown by me are Martin's Amber, last harvest giving a crop I think of twenty bushels to the acre, fully as good as the Pool protected by woodland, while the Fultz was almost a failure. I have experimented with 1¼, 1½, 1¾, 2 and 2¼ bushels of seed to the acre, and have settled on 1¾ bushels; and if I were to change it would be to 1¼, this yield being neat and less shrunken grains.

I believe I speak the sentiments of a majority of winter wheat raisers when I say drilled wheat withstands the winter better than broadcasting. As the time has come for farmers to sow no more wheat than they can manure or fertilize, it is necessary to have a fertilizing drill. Hoes should be clean from rust, before beginning to sow, as failure in covering seed would be the result from rusty hoes. Four times thickness of grain is deep enough to cover. In drilling wheat I have a driver, who rides on drill, and I follow behind drill myself, generally, or he has some one, to see that every feed if working properly, grain, grass and fertilizer. It frequently happens that these become clogged, the hoe becomes shut with a clod, or stubble accumulates on the point of the hoe, failing to cover seed, all of which requires the constant care of some one. If wheat is drilled in circles, when feed wheel is on outer circle, the drill will sow more seed than when on inner circle.

WHEN TO SOW WHEAT.

There is no disagreement I believe in time of sowing spring wheat, all agreeing that it should be sown as early in spring as the ground can be put in condition. But winter wheat is sown from September 1 until November 15. Some advocate early sowing from 1st to 10th of September. They do this in order to get a large leaf growth as a protection to the plant from freezing out during the winter, thereby propagating the worst insect wheat destroyer known, the Hessian fly. This pest is said to have been introduced into this country by the Hessian troops during the Revolutionary war. And where it goes, it goes to stay. The only way to check its ravages is late sowing. Some ten years ago our wheat crop was badly injured in this locality by this insect, and I recollect of reading in the New York *Tribune* a statement made by C. V. Riley (I think) of experiments made by sowing wheat every day in September. And it was found that the fly attacked every sowing until September 24, all sowings after that escaping. So far as my experience goes I find this statement correct. If ground is properly prepared to raise a profitable crop of wheat, it is folly to sow until after frost. The heavy crops of wheat grown in New York, Pennsylvania and Ohio, between 40° and 43° North latitude, are sown the last half of September or first half of October. This late sowing requires better preparation of ground wheat and grass plants as rapidly as possible. The latest sowings are generally on corn ground seeded after corn is cut off. Oats should follow corn, yet on ground likely to wash during winter rains sowing to wheat is an advantage, if not done in a slovenly way, as frequently happens. I put the two-horse shovel plow on this ground, set the shovels to throw soil away from corn roots without disturbing them, then harrow ground level before drilling. Never plow such ground with moldboard plow; you will fail in getting a solid seed-bed. Sow after a rain. If sown directly before a rain, a crust will form on top of soil, thereby excluding the air. During germination, seeds absorb oxygen and give off carbonic acid; hence the presence of air is necessary, as seeds cannot sprout unless oxygen be within their reach.

Westmoreland Co., Pa.

Anecdote of Bishop Simpson.

BY REV. J. J. MARKS, D. D.

When Bishop Simpson was president of Indiana Asbury University, he occasionally preached in the adjoining towns and villages. Upon one occasion he visited a neighborhood where a number of Methodists had settled, and was the guest of a brother named Swank. He had immigrated from Kentucky, and had brought with him the means of purchasing a fine estate, and at the time of which I write was very prominent as a citizen, a man of wealth, and a church member.

After dinner on Saturday Mr. Swank invited the Bishop to walk out and look over his improvements and lands. They looked at his glossy imported cattle, at his numerous beautiful horses, and his flocks of sheep, over his wide meadows, and luxuriant fields of corn and wheat.

In the presence of these broad acres, where every clod blessed its owner, and where every creature was basking in the sunshine of the highest enjoyment of which its nature was capable, the Bishop expressed the greatest pleasure.

"Brother Swank," said he, "you ought to be one of the most grateful of men; God has filled with all good things your basket and store; where did you obtain the means for all these improvements and purchases? Did you not tell me you sold land in Kentucky?"

"O, yes, all I had there I sold before I left," he replied.

"Had you negroes, Brother Swank?"

"O, yes," he answered. "I sold them all, I could not bring them here."

"And you sold your negroes; and some of them members of the same Church with yourself, were they not?"

"O, yes," replied Mr. Swank; "how could I do otherwise? Everybody, members of all churches, sold their slaves; what else could I do with them?"

"You could have emancipated them, Brother Swank; taken them, if necessary, to a free State; bought land for them, and paid them back something of what they earned for you. Brother Swank," said the Bishop, stopping and looking most earnestly into his face, "you want to be saved, don't you?"

"Certainly I do," replied Mr. Swank, rather crustily.

"Then," said the Bishop, "go and find those negroes, and buy them back; for in selling them you sold Jesus Christ your Lord, for what you did to the least of his brethren you did to him."

Mr. Swank made no reply, walked home in silence, did not attend the evening meeting, went not with the Bishop on the Sabbath, and never entered the church again. The buried spear pierced the heart of his covetousness, and its point developed a cancer that never healed.—*St. Louis Evangelist.*

Washington at Yorktown.

One who was in the army at the time relates an incident that came under his notice:—

"A considerable canonading from the enemy; one shot killed three men, and mortally wounded another. While the Rev. Mr. Evans, our chaplain, was standing near the Commander-in-Chief, a shot struck the ground so near as to cover his hat with sand. Being much agitated, he took off his hat, and said, 'See here, General!' 'Mr. Evans,' replied His Excellency, with his usual composure, 'you'd better carry that home and show it to your wife and children.'"

Indeed it seemed to many that Washington bore a charmed life, and it was often said that he was under the special protection of God. He was fearless, and constantly exposed to danger, but his constant escapes made him cool and self-possessed, and the admiration of his men. He was excited by the events which were hurrying the war to the close, and he watched with intense earnestness the several assaults which were made on the works. Once he had dismounted and was standing by Gens. Knox and Lincoln at the grand battery. It was not a safe place, for, though they were behind a fortification, it was quite possible for shot to enter the opening through which they were looking. One of his aids, growing nervous, begged him to leave, for the place was very much exposed.

"If you think so," said Washington, "you are at liberty to step back." Presently a ball did strike the cannon, and, rolling off, fell at Washington's feet. Gen. Knox seized him by the arm.

"My dear General," said he, "we can't spare you yet."

"It's a spent ball," replied Washington, coolly. "No harm is done." He watched the action until the redoubts which his men had been assaulting were taken; then he drew a long breath of relief and turned to Knox.

"The work is done," he said emphatically; "and well done."

A straight line is shortest in morals, as in mathematics.

Actors say the hardest task to learn is how to laugh naturally.

Best thing to do when you go shopping with ladies—Take notes.

Ruskin says that it is much more difficult to be simple than complicated. This fact was never better understood than by the Englishman who invented the present method of counting in lawn tennis.

All Sorts.

Every crab has its own sidewalk.

The summer complaint—it's hot.

A party leader—the small boy who leads the blind man.

It is worthy of note that the mosquito never drinks behind the bar.

The man who tells his friends all he knows usually doesn't have much to tell.

As caramels in the shop window are to the small boy, so are the lips of your sweetheart when her chaperon is nigh.

An exchange prints an article entitled "How to Select a Melon," and nowhere in it is anything said about a dark night.

"Arthur:" Yes, we should like to have you write for our paper. Address your letter to the business office and it will be sent to you.

A Minneapolis milk man died the other day from drinking milk from his own dairy. Water on the brain was what knocked him out, according to the physician's certificate.

"A man in Berks county owns several almanacs over one hundred years old." So, we infer, do nearly every minstrel troupe in this country. About five hundred years over, we should say.

Not improbable — Teacher—"What would in all probability have been the result if Julius Cæsar had not been assassinated?" Pupil—"He would probably have died subsequently."

"What do you grow on this land?" he inquired of the farmer who was leaning over a fence inspecting a particularly barren piece of ground. "Grow lazy," was the satisfactory reply.

"What paper should you think would sell best at the summer resorts, Mr. Spicer?" asked one of the boarders. "Fly paper," said Seth making a vicious dab at the place which his back hair formerly occupied.

Tommy (who has just received a severe scolding)—Am I really so bad, mama?—Yes, Tommy, you are a very bad boy. Tommy (reflectively)—Well, anyway, mamma I think you ought to be real glad I ain't twins.

"What is that big iron thing full of holes?" asked Laura. "Locomotive boiler," said Tom. Laura looked thoughtful. After a moment's silence she asked: "Why do they boil locomotives?" Tom looked amazed: "To make 'em tender," he said slowly.

I understand, sir, that you are a connoisseur in diamonds." "Yes, sir." "What kind would you select now-a days?" "Well, I'd have the in-field clear of grass, but outside of the bases I think I'd have a fine lawn. I've laid out lots of ball-grounds."

"Doctor," said he, as he entered the office, I don't know what the trouble is, but I can't sleep at night." "What's your business, my friend?" "I'm a plumber, sir." "Young man, you need a clergyman; I can't undertake to cure your conscience."

Caused a relapse.—Dr. Blitz—"How is Col. Blank?" Dr. Mites—"He was getting along finely, but yesterday he took a relapse and died within ten minutes." Dr. Blitz—What caused the relapse?" Dr. Mites—"One of the morning papers published a woodcut of him."

"Are you a philanthropist, sir? asked an old gentleman of a young man who was distributing a quantity of butterscotch to some little children. "Am I what?" said the young man. "A philanthropist." "No, sir; I am a dentist." N. B.—Butterscotch is bad for the teeth.

An Englishman shooting small game in Germany remarked to his host that there was a spice of danger in shooting in America. "Ah," said the host, "you like danger mit your sport? Den you go out shooting mit me. De last time I shoot mine bruder-in-law in de schtomack."

Union workingman—"Our union asks you to boycott this beer. You are a workingman and ought to stand by us." Sensible workingman—"I boycotted the whole beer business some time ago, thank you. I've been spending the money saved in that way for food for my family."

A QUESTION ABOUT
Brown's Iron Bitters
ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe IRON. Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. **BROWN'S IRON BITTERS** cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments Iron is prescribed daily.

BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the **ONLY** iron medicine that is not injurious. *Physicians and Druggists recommend it.*

The Genuine has Trade Mark and crossed red lines on wrapper. **TAKE NO OTHER.**

Medica, Etc.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.

As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

W. J. McELROY, Macon, Ga.

GOLD fields are scarce, but those who write to Stinson & Co., Portland, Maine, will receive free, full information about work which they can do, and live at home, that will pay them from $5 to $25 per day. Some have earned over $50 in a day. Either sex, young or old. Capital not required. You are started free. Those who start at once are absolutely sure of snug little fortunes. All is new. 17 46 1y

SICK-HEADACHE, Bilious Headache, Dizziness, Constipation, Indigestion, and Bilious Attacks, promptly cured by Dr. Pierce's Pleasant Purgative Pellets. 25 cents a vial, by Druggists.

College-Bred Presidents.

The education of our Presidents is an interesting study. Twelve of the twenty-one before President Cleveland were college-graduates, and one of these took a post-graduate course. Williams and Mary College furnished three Presidents, although only two graduated. Thomas Jefferson, at 17, entered the Junior class; he was considered very wild during the first year, but as a Senior he became a faithful student. John Tyler, Williams and Mary, 1807, delivered at Commencement a very able oration on "Female Education." James Monroe entered Freshman at Williams and Mary when sixteen but left to join the army after the Declaration of Independence.

Harvard graduated two Presidents—John Adams, in 1755, and John Quincy Adams, who attended the University of Leyden, and in 1788, entered the Junior class. He was graduated with second honors and delivered an oration on the "Importance of Public Faith to the Well-being of a Community." Princeton sent forth James Madison, who was a very faithful student and graduated with the degreee of Bachelor of Arts, in 1771. He then took a post graduate course under Dr. Witherspoon. James K. Polk was graduated from the University of North Carolina, with second honors, in 1818, having entered as a Sophomore. Franklin Pierce was graduated from Bowdoin College in 1824. James Buchanan, from Dickinson College (Pennsylvania), in 1808. Ulysses S. Grant, from West Point in 1848, ranking twenty-first in a class of thirty-nine. Rutherford B. Hayes was valedictorian at Kenyon College (Ohio), in 1842. James A. Garfield graduated at Williams, in 1856, winning the metaphysicel honor; and Chester A. Arthur, from Union College, in 1848.

Would Walk.

"How much vhas a ticket to Lansing?" he asked at the Third St. depot yesterday.

"Two forty."

"Make him $2."

"No sir."

"But I like to go oudt undt see my brudder."

"The price is two forty, sir."

"How far was he?"

"Eighty six miles."

"I gif you $2, and mebbe I go outagain next fall."

"No sir."

"You don't take him?"

"No sir."

"My friendt, dot vhas all right. I like to see my brudder, but now I don't go oudt."

"Can't help that."

"Mebbe you think my brodder comes in to see me und gif you two-forty. You vhas off. He vhalks eafery shtep of der way, und you doan' get so much as one looks mit his coat tails. My friendt, good bye."

THE marriage certificate of GROVER CLEVELAND and FRANCES FOLSOM is not finished yet, but when it is completed it will be a marvel of Jeffersonian simplicity. The document bears on its upper left hand corner a very pretty picture of the White House, drawn by Mr. Pruden the President's assistant secretary, and it rests on a bed of blue velvet in an alligator-skin portfolio about twelve inches long and eight inches wide. It will be signed by all who were present at the wedding, and therefore will contain a varied assortment of specimens of Democratic chirography, diagrams for the explanation of which will be attached. Could a marriage certificate be more delightfully and thoroughly simple and Jeffersonian? It will be remembered that Jefferson had his marriage certificate fixed up in just that way. How sad Garland will feel when he thinks that his name might have been on that certificate, but alas! it will not be there. The next thing will be to send for a photographer and have the document taken in nineteen different poses, for distribution among a palpitating people.

—The Philipsburg *Ledger* reports that George M. Rhule, the well known contractor and builder, who was bitten by a rattlesnake near Philipsburg on Saturday, is recovering from the effects of the bite. He had a severe time of it and at first could not find any whisky to use as an antidote, so he sucked the poison from the bite with his lips. Afterward he drank plentifully of whisky. He went into violent delirium, but is now on the way to recovery.

—Burgess Ribling of Houtzdale, having moved his residence outside the borough limits, Councilman G. Herman, of the firm of Lang, Feldman & Co., has been appointed by unanimous vote of council, as well as by the general request of the citizens, to the office of chief burgess of Houtzdale. The appointment gives universal satisfaction.

—The Ruttan Smead system of heating and ventilation is in use in the M. E. church at Tyrone and in the High School of the same place. It gives general satisfaction, and we are of the opinion that the Bellefonte School Board was wise in adopting it for the new school building.

—That new veranda in front of Humes' block on Allegheny street is an important and handsome improvement. Mr. Humes' has been making quite extensive improvements to his property recently.

HAVE YOU RHEUMATISM?

A remedy has been discovered. In this country it is new. It has, however, been in successful use for many years in Europe, and it is a fact that the

RUSSIAN RHEUMATISM CURE

has the endorsement of Continental Physicians and Government Sanitary Commissions, as well as the thousands of sufferers to whom it has brought relief. It has saved others—all who have tried it. It

WILL SAVE YOU

from further agony, if you'll only give it a chance.

Descriptive pamphlet, with testimonials, free.

Price $2.50. If mailed, 10c. additional. If registered, 10c. more.

One box does the business. RUSSIAN THOS. DEY & SON RHEUMATISM CURE. None Genuine without this Trade-Mark.

As yet it is not to be found at the stores, but can only be had by enclosing the amount as above, and addressing the American proprietors.

A Rush of Water.

CHICAGO, August 6.—A special dispatch from Fort Keogh, Mont., says: Word has been received from Simmons' sheep corral, on the American Fork of the Mussel Shoal, that a cloud burst occurred there on Monday evening which destroyed eight hundred head of sheep. The cloud exploded at the head of Dry Run creek, and came pouring down in a solid wall twenty-two feet high, carrying off nearly the entire herd and almost drowning a herder. The carcasses of the animals are strewn along the river for a distance of over sixteen miles below the scene of the disaster.

The Upper Yellowstone Valley was visited yesterday by a terrible hailstorm, which rooted up and destroyed every growing thing in a strip of country six miles wide. Near Merrill occurred a cloud hail burst. For half an hour the hail was beyond description. There were drifts of hail fourteen inches accompanying the hail—simply one sheet of hail came pouring down.

A special dispatch from Decatur, Illinois, says: Last evening a severe storm passed over this section, which alarmed many people so that they sought the security of the cellars, thinking that a cyclone was about to devastate the town. The wind damaged buildings and stripped trees of their fruit, while large trees and cornfields were laid flat in many places. One building was partly wrecked and the west walls of the New English Lutheran church blown in. One of the electric light towers was bent partly over. Much rain also fell. The extent of the storm in the surrounding country has not yet been learned, but it is known that considerable hail fell.

All on Board were Lost.

SARNIA, Ont., August 6.—Intelligence was received here this morning that the missing yacht with a pleasure party on board for which search has been made for the past two days, had been wrecked near Port Franks and all hands lost. The party consisted of the following: Manager Telfer, of the Bank of London, Watford; Wm. Vidal, station agent at Watford, and son of Vidal; W. C. Morrison, of Jarvis, formerly of Sarnia; Wm. J. Sinclair, law student and secretary of West Lambtom Reform Association; Hope Mackenzie and Fleming Mackensie, nephews of Hon. Alex. Mackenzie.

The party left here three weeks ago for a cruise to Manitoulin Island and northern waters of Lake Huron. They were last heard from at Southampton, homeward bound. Mr. Vidal, an expert and daring yachtsman, was sailing master for the cruise, and as he was to be on duty at Watford on Monday morning it it supposed that he laid his course from Southampton for Sarnia, straight through the lake instead of coming down the shore, and were caught and swamped in Sunday night's gale. The bodies of Telfer and the two Mackenzies have already been recovered. Search for the others is still going on.

A Remarkable Treaty.

WASHINGTON, August 6.—The extradition treaty signed at Tokio, April 29, between the United States minister and the Japanese foreign minister, and which was sent to the senate by the president on June 9, but has go e over to the next session unacted upon, covers about all the crimes that have ever been made extraditable by treaty with any country, and includes forgery and the clause known in the pending extradition treaty with England as the dynamite clause. It is understood that the senate favors the treaty, but have stuck over a doubt as to how Japan might construe the clause relating to political offenders, which is framed to protect that class as usual. The treaty is remarkable as being the first extraditian treaty ever enacted into by Japan, and as the first between the United States and any Asiatic county.

A Tale of Love and Murder.

Special to the DAILY NEWS,

VAIL, July 7, 1886.

A terrible tragedy was enacted at Wallaceton, Clearfield county, yesterday afternoon. The account given to your informant is that a Mr. McClain, of Peale City, had been paying attention to Miss Ella Davis, of Wallaceton. He called yesterday and offered his hand and heart in matrimony which she firmly refused.

He, thereupon, drew a revolver and shot her first in the heart and then in the head, killing her instantly. Going into the street, he fired and shot himself in the head. He lived only two hours afterward. BALD EAGLE.

The Tennessee Elections.

NASHVILLE, Aug. 6.—The election in Tennessee was for five judges of the supreme court and a full list of county officers. Returns come in too slowly to enable figures to be given, but Democratic gains are reported, and the best idea that can now be formed is that the Democratic state ticket is elected by 35,000—a Democratic gain of about 28,000 over two years ago. The majorities may reach 40,000, as every county so far as heard from, without exception, has shown Democratic gains. The successful candidates for the state supreme bench are Peter Turney, W. C. Caldwell, W. H. Lurton, D. L. Snodgrass and W. C. Folkes.

A Sad Case.

NEW YORK, August 7.—Three weeks ago Jesse J. Catlin, a young and prosperous employe of the Pennsylvania railroad, living with a wife and child at Elizabeth, N. J., rushed in front of an express train passing the South Elizabeth station to save the life of Miss Anna E. Wyckoff, who had carelessly started to cross the track without seeing the express. He failed in his effort and the lady was instantly killed and he himself struck and it was thought fatally injured. He still lives, but he has become a raving maniac, who requires five watchers constantly in attendance to restrain him. He imagines that he killed the young lady and has been convicted and sentenced to be hanged for the crime. He is to be removed to an asylum, and his wife, in the meantime, is dying from the result of the constant strain she has been under since the accident, and from grief at his condition.

Cutting Asks for Protection.

EL PASO, Tex., Aug. 9.—Editor Cutting received information yesterday that he would be taken to Chihuahua on the southbound Mexican Central train. He feared that he would be massacred on some pretext if they took him away from the border, and his friends have busied themselves in his behalf. The following telegram was sent to by the prisoner to the governor of Texas:

HON. JOHN IRELAND, Governor of Texas: As a citizen of Texas, I ask of you the protection that your friends assure me you can and will extend to me.

[Signed] A. K. CUTTING.

A body of determined and well armed minute men has been organized on this eide, and are ready for duty at a moment's notice should anything require their services occur. The men are under the command of cool-minded officers and will not precipitate an outbreak. The Mexicans continue to fear that a force will cross the river, and have an additional force on duty. The soldiers in the barracks were paraded through the streets during the evening, when a great many Americans, as is the custom, had crossed the river.

It is very evident that the officials and people of Chihuahua believe that the Government of the United States will back down. They think our State Department will be satisfied by Minister Mariscal's efforts and will submit to the punishment of Mr. Cutting. The conviction and sentence of Cutting in the face of a peremtory demand of the American government for his instant release has produced a profound sensation here and has occasioned exciting comment and much uneasiness in El Passo. The feeling is prevalent that our goverment has taken a position that it cannot back down from, and that war is certain.

Texans Terribly Excited.

DENVER, Col., August 9.—An El Paso special says: The excitement over the Cutting embroglio is much intensified to-day. A passenger on the train from Chihuahua City this morning says that it is known positively that the governor ordered the Paso Del Norte authorities, in case of an attack from Texas, to cut off the prisoner's head and deliver it to the Americans. Eight hundred Mexican troops are said to have left Lagoes for Paso Del Norte on Sunday night. It is asserted that a second demand has been made and that the American officials have been notified to leave Mexico.

Large crowds gathered at every street corner. The arrival of company F, Tenth United States cavalry, at Fort Bliss, which was assigned here two months ago, has caused a rumor to the effect that eight car loads of United States soldiers are on the spot. The bad effects of these difficulties upon business are becoming very apparent and everything looks like war. From the Mexican standpoint a report was circulated to the effect that Consul Brigham had confirmed the statement that a second demand for Cutting's release had been made by the United States government and the people went wild with delight. Brigham, however, says that he was misunderstood; that he expects such a demand at any moment, but does not know that it has been made. Cutting has been called before the court in Paso Del Norte, and Consul Brigham is in attendance.

Mr. Tilden's Will.

NEW YORK, August 9.—The will of Samuel J. Tilden was read at Greystone this afternoon, in the presence of all the relatives, except those in the west. From John Bigelow the following facts about the will were learned. Mr. Bigelow, Andrew H. Green and George W. Smith are named as executors and trustees. All of Tilden's kindred are generously provided for in this way: The whole estate is placed in the hands of the executors as trustees.

Each heir is to receive an equal share in the line of his or her consanguinity; that is nephews and nieces equal amounts and their children certain amounts, but they are to receive only the income from an equal, separate specified sum, the principal at their death to be disposed of in a manner which Bigelow could not state.

None of his relatives, he said, except Mrs. Mary B. Pilton, his sister, are given any specific bequests. Forever to her he bequeaths the residence No 38 West Thirty-eight street and the sum of $100,000 to live upon. All of his real estate, except this, is placed in his executors' hands to be disposed of as they see fit, either by sale, rental or exchange, Greystone and Gramarcy Park property falling under the same rule.

In the Hands of the Sheriff.

CHICAGO, August 9.—A. P. Elder, of the Elder Publishing Company, and proprietor of the *Literary Life*, the magazine which Miss Rose Cleveland, the President's sister, has undertaken to edit, has confessed judgment in favor of James J. West, of the western publishing company, in the sum of $10,000. On Saturday evening Mr. Elder gave West a judgment demand note in the amount named. Judgment and execution were issued this morning, and this afternoon the sheriff levied on the real estate and personal property of Mr. Elder. Mr. Elder says the publication of the magazine will not be affected in any way.

Mining Accidents for July.

HAZELTON, August 9.—Mine Inspector Roderock, of this district, reports for the month of July 16 accidents, 6 of which were fatal.

More Riots in Belfast.

BELFAST, August 9.—Noon.—Rioting was renewed here this morning and desperate fighting between the mob and the police, assisted by the military, has been going on since an early hour. At this writing the fighting is growing fiercer and assuming large proportions. The rioters are showing no mercy. The police are firing into their ranks and remorselessly shooting them down as though they were wild beasts. So far this morning thirty persons have been brought to the hospitals for treatment for gunshot wounds. While the fighting was in progress this morning a soldier at close quarters fired at a boy, shattering his hand. The soldier was arrested. Reinforcements of troops to the number of 1,200 have arrived in Belfast to-day.

ADDITIONAL LOCAL NEWS.

Three Items from Howard.

HOWARD, Pa., August 9, 1886.

Mr. Philip Deitz had quite a serious accident one day of last week. While driving along a road which sloped toward the edge his wagon upset, despite all his efforts to keep it in an upright position. Mr. Deitz was thrown against the fence and his hip was seriously hurt. Latest reports say that he is improving slowly. He is a member of Post 262, G. A. R.

The Sunday-school concert was quite a success, considering all the opposition to it that was aroused. The singing recitations, etc., were very good and the collection taken was fair for a Sunday-school, as often people do not pay as well toward these Christian institutions as they do to others of less importance. This was a free entertainment and perhaps the last with which this community will be favored.

The school board has decided to pay the same wages that it did last year—$40 per month for the first grade, $28 for the second and $25 for the primary. School will be continued five months, as usual. It should be six, by all means. ALERT.

—We are informed (and we have no reason to doubt it) that there are business places in Bellefonte that transact a large business on Sunday. Customers are seen going in and out of the establishments and evidently make purchases. Now, as there are others in Bellefonte in the same business who obey the law and keep their establishments closed, refusing to make sales, it is unfair and unlawful to permit the first-mentioned to keep open. All should close or else the laws on the subject (be they blue laws—red, green or any other color) should be abrogated. Where is the Law and Order League? Are we a law-abiding community?

—The young man named James McClain, who is mentioned in a dispatch elsewhere as having committed a terrible crime on Friday at Wallaceton, a small village along the line of the Beech Creek railroad, came to that place from Danville, N.Y., where his father lives. He bought the revolver with which he committed the rash deed, in Philipsburg, this county. It is supposed that the objection of the girl to McClain is one of religion, she being a Protestant and he a Catholic. The local authorities took charge of McClain and found a note on his person which is addressed to "Dear Bill" and testifies to his love for the girl.

—Next Sunday evening Rev. D. S. Monroe, D. D., will begin to preach a series of sermons on the "Popular sins of the day." He says that people who want to know what particular sin the first sermon will discuss must come to hear him. We understand that Rev. Dr. Monroe never asks for a summer vacation, and don't exactly believe in it unless the physical condition of the minister absolutely requires it. Consequently, he will fight sin more vigorously than ever during the hot period which seems so very favorable to the advances of His Satanic Majesty, who will probably steer clear of Bellefonte this Summer.

—The ladies of the M. E. Sunday-school at Fillmore will give a grand ice cream and cake lawn festival at that place on Saturday afternoon and evening, the 14th. These ladies desire to collect a handsome sum for their church and will exert themselves to make the coming festival the finest ever known in that neighborhood. The refreshments will be served out-doors in great profusion and elegance, by the prettiest young ladies in the neighborhood. Let everybody come. They will receive a hearty welcome and will depart refreshed in mind and body.

—We smiled long and loud on Tuesday when we were told *who* it is that disturbed the midnight slumbers of a portion of Bellefonte's population. The idea of the musical efforts of those singers being disturbing in their influence! Oh no, such music will woo anyone into sounder sleep, or else will give them pleasant dreams. We trust our vigilant police will not arrest the midnight vocalists, and must believe that such serenades are a benefit rather than otherwise. Perhaps the good conservators of the peace might cultivate their ear for music.

—The funeral of Mr. Hammon Sechler's father will occur on Friday afternoon at his home near Montgomery in Lycoming county. He was quite an aged man. His death took place on Tuesday, after a long illness. Mr. Sechler's store will remain closed until Saturday morning.

A Rabbit in a Battle.

In his reply to Gen. Sickles, published in the *Weekly Press* of Aug. 4, Gen. Lafayette McLaws, the Commander of the Confederate Forces which drove the Third Corps back on the second day at Gettysburg, narrates the following curious incident:

After Sickles' men were started they went with so much celerity that Wofford's men were behind a considerable distance, so that there was a wide space between the advancing and receding forces. Within that space a rabbit jumped up and ran toward the federal lines. Wofford's men, reckless fellows as they were, raised a shout, and about fifty shots were fired at the rabbit. The rabbit was not hit.

—Democracy's day began with the arrival of the train over the Lemont road Tuesday morning. What immense throngs of people came upon it! Two cars were so crowded that the sides of the cars bulged out and the passengers near the windows had to protrude their heads to get a breath of fresh air. They hung on the ragged edges of the car platform and an enthusiastic Democrat was visible wherever foothold could be obtained. By the way, we are of opinion that Supt. Westfall should be more generous in supplying cars on such occasions. This is the second time we have seen the Lemont train dangerously thronged. The first time was on the occasion of the Methodist Sunday-school picnic.

Keely's motor is finally a success. This time the motive power is sound. A few words uttered in ordinary tone of voice will drive his six-hundred-horse power engine at a rate of speed that causes the whole village of Philadelphia to vibrate. A group of passengers conversing near the engine room of an ocean steamer, armed of course with a Keely motor, would drive the ship through the water about ninety knots an hour. The ladies' cabin connected with the engine by an ordinary gaspipe will reduce the voyage from ten days to three and one-half hours.

—Sylvester Ray, Esq., has been engaged by the Steam Heating and Gas Company to make a survey of the properties of the town with the view of showing exactly where the pipes of that company extend. This requires him sometimes to enter into private enclosures, the occupants of which become fearful that he is laying some scheme to euchre them out of their property. Although he is a lawyer, he has no such dangerous plans in his mind and will leave all property uninjured as he finds it if not interfered with.

—The tragedy enacted at Wallaceton on Friday, resulting in the killing of Miss Ella Davis by a young man named McClain and then the taking of his own life, has caused considerable interested comment in Bellefonte. We learn that after the event McClain's body was removed to Philipsburg, to which place his father came from Danville, N. Y., and then took the remains of his son home with him. Miss Davis was buried at Williams Grove Cemetery, near Bigler, Sunday afternoon.

—A painter is at work brightening up the school building. It is evident that the school board has about it much that is progressive and wise. They are sensible in making everything neat and in good condition before the reopening of the schools, because if the pupils are not surrounded by things that are neat, cheerful and clean, how can they expect to have those qualities?

—The moon is now filling out and about next Saturday will be quite full. This will render it delightful for parties who intend to be present at the M. E. Sunday-school festival at Fillmore and want to return the same night. All of the people of that section will attend the festival, and why should not many people go even from this vicinity. Next Saturday afternoon and evening.

—We believe that the Republicans of this district—especially the Centre county part of it—have among them much better Congressional material than can be found among the Democrats. There's not a man in the Democratic party who is better fitted for such an office than either James Milliken, Edmund Blanchard, Jno. B. Lynn or James P. Coburn.

—We sincerely hope that the ladies of the M. E. Sunday-school at Fillmore will have great success with their festival next Saturday evening. Mr. Kephart was in Bellefonte on Saturday, and he informs us that the festival will be held on the lawn. It will continue through the afternoon and evening and will be more attractive than usual.

—A purchase-money mortgage of $600,000 on the Valentine real estate and ore lands was filed on Thursday in the recorder's office in this place. It was issued to the Fidelity Insurance and Trust Company, of Philadelphia. The property consists of 12,000 acres of ore lands and some sixty houses.

—On Friday afternoon, near Shippensburg, Lourey Sibbett accidentally shot his cousin, Andrew Witherspoon, a young man who had just returned from Virginia, the bullet entering the man's face just below the left eye. Despite the best of medical attention he died at 7 o'clock in the evening.

—The name of Guyer Mattern, of Scotia, is announced for the Republican nomination for Prothonotary. Young, popular, energetic, of the strictest integrity, his very name is a tower of strength, and if he should be nominated and elected, Centre county would have the best prothonotary who ever held that office.

SPECIAL MENTION.

Hon. Alexander H. Stephens.

"I am directed by my uncle, Hon. A. H. Stephens, to say to you that he has derived some benefit from the use of Simmons Liver Regulator, and that he wishes to give it further trial. Yours respectfully, W. G. STEPHENS,

"Crawfordsville, Ga., March 31, 1870."

Extract of a letter from Hon. Alexander H. Stephens, dated March 8, 1872: "I occasionally use, when my condition requires it, Dr. Simmons Liver Regulator, with good effect. A. H. STEPHENS.

—The next great excursion by the Pennsylvania Railroad to Atlantic City, Cape May and Sea Isle City will leave Tyrone on Thursday, August 19, at 1.25 p.m. The rate will be $7.65. To meet the train at Tyrone those who start from Bellefonte must go on the 10.30 a. m. express.

THE GAME OF VERBA charms all who play it. While amusing, it is instructive and fascinating, and time flies when a party is engaged with it. Sent, postpaid, to any address, with four handsomely colored cards, on receipt of ten cents in stamps. R. H. McDonald Drug Co., 532 Washington St., N. Y.

—On the inside of this paper is printed a valuable article on "How and When to Sow Wheat." In view of the failure of the wheat crop in part of Centre county this year this article will be found valuable to all who are engaged in farming. We advise a careful reading of it.

"Quinsy troubled me twenty years. Since I started using Dr. Thomas' Eclectric Oil, have not had an attack. The Oil cures sore throat at once." Mrs. Letta Conrad, Standish, Mich.

—The Bellefonte Iron Company Monday took charge of what was formerly the Valentine and Thomas iron and ore interests. They will complete the contracts which the Valentines had accepted. Mr. Jesse Stewart has the sub-contract for the stone work of the new furnace.

All our New Woolens for the Spring and Summer season—1886—just received. Leave your order now. MONTGOMERY & Co., Tailors.

—The man whose knee cap was fractured by being thrown from the Brockerhoff House bar room on Saturday afternoon is Mr. D'Ockerman. He is a Frenchman and an employe of the Glass Works. The action is much condemned and will probably be settled in the courts.

Pure blood is absolutely necessary in order to enjoy perfect health. Hood's Sarsaparilla purifies the blood and strengthens the system.

—Register before September 2d.

Students can enter the State Normal School any day. Write to the Principal.

ANNOUNCEMENTS.

PROTHONOTARY.

We are authorized to announce that Guyer Mattern, of Scotia, will be a candidate for Prothonotary, subject to the decision of the Republican county convention.

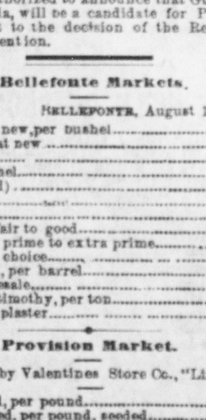
ROYAL



BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall St., N. Y. 18 17 1y

"Oil Poured on the Troubled Waters."

The seething, boiling cauldron of Democratic local politics was lifted from the fire on Tuesday afternoon and soon became tranquil. The first part of their county convention was tempestuous, but the close was lamblike. The fierce fire of passion rankles in many breasts and will burst forth ere many days with all the power of an active volcano. A scene was created in the convention when a delegate named Clark accused his fellow delegates of ballot-box stuffing and kindred crimes.

A. J. Graham, of Philipsburg, was made President, Mr. Cramer reading clerk and E. A. Frank, of Millheim, and Thos. McCann, of Snow Shoe, secretaries. County Chairman Judge Hoy made a speech and in almost as quick time as is required to write it ex-Governor A. G. Curtin received that "complimentary" nomination for Congress. Ex-Senator Alexander withdrew and left P. G. Meek the only candidate for State Senator and he was nominated.

Messrs. John A. Woodward and Leonard Rhone were nominated for assembly, despite the fact that the former actively opposed the hygiene bill last Winter and the latter hied himself off to Harrisburg to secure the appointment of the present prothonotary before the rules of decency would admit of doing so.

Again withdrawals were in order—this time from Harper and Williams—each of whom have been laboring hard for the nomination for Prothonotary. Mingle and Shaffer were left alone to contest the honor and the latter captured it easily.

J. C. Meyer, Esq., had no opposition for district attorney and walked off with the prize.

Mr. Geo. W. McGaffey, of Philipsburg, was made to fit into Mr. Mingle's place as delegate to the State Convention.

Four persons were elected for delegates to the State Convention, viz., T. K. Alexander, Thos. McCann, W. C. Patterson and John A. Holt.

We don't believe Mr. Hammon Sechler wanted to be county chairman and it was rather foolish to name him for that position. James A. McClain was elected by a vote of 58 to 25.

Afterwards Mr. Sechler was made a member of the State Committee—a place suitable for a business man.

Chairman Fortney read the declaration of principles. A revision of the tariff is declared for, evidently with the intention of closing up every workshop in the county.

The President is lauded for vetoing the pensions of soldiers and we dare say if Centre county democracy had its way no pensions would be granted.

Senator Wm. A. Wallace is praised and store orders denounced. Just what connection Wallace may have with store orders the author of the resolution should explain.

The convention seemed to lose all interest and by the time the bosses had concluded their manipulation of the affair only a corporal's guard remained and the convention adjourned without a speech.

The rank and file adjourned to the refreshment counter for something a little more exciting.

The conferrees who will seek to secure the district nomination for Mr. Curtin are Balser Webber, Jared Fisher and Christ Hirlinger, and the gentlemen who will do their best to see that P. G. Meek "gets there" are Maj. Reynolds, Harbison Holt and Joseph Gilliland.

Is the Sun Cooling?

Most physicists believe a time will come when the sun will radiate much less heat than it has furnished the earth since the life period on our globe began. If this be true, and there are many good reasons for believing that it is, a time will also come when the heat emitted by it will be so small that only life of the highest and hardiest forms can be sustained on the earth. And this will be followed by a period in which life of all kinds will become extinct. When that period arrives, be it near or remote, as ages in the world development are counted off, the earth will doubtless have fulfilled the mission for which it was called into being.

—Never was the power of the bosses exerted more potently than in the Democratic county convention on Tuesday afternoon. It is evident that a certain clique reigns supreme in the councils of the Democratic party of Centre county. A mere touch of the soft gloved but powerful hand effectually subdues and chokes off all objectors. Kicking is not permitted. Independence of spirit is at a discount. A veteran politician, who has had as much experience in such affairs as any man in Centre county, told us that he never saw anything equal to the convention of Tuesday in its absolute control by the bosses and the consequent smoothness of all the proceedings.

—There will be a festival held at Boalsburg on Friday and Saturday evenings of this week the 13th and 14th, for the benefit of the M. E. church. Music will be furnished on Friday evening by the Oak Hall string band, and on Saturday evening by the Linden Hall Cornet band. All are invited to attend. By order of the Committee.

—Mr. John Sourbeck has purchased a very fine team of cream white horses which are the handsomest animals in town.

Serve an Injunction on Disease.

By invigorating a feeble constitution, renovating a debilitated physique, and enriching a thin and innutritious circulation with Hostetter's Stomach Bitters, the finest, the most highly sanctioned, and the most popular tonic and preventive in existence. It strengthens the stomach, remedies torpor of the liver and bowels, and gives a healthful impulse to the secretive and discharging functions of the kidneys and bladder. Not only does it arrest and prevent the recurrence of malarial fevers, but it furnishes the only adequate safeguard against them to persons who have never been afflicted with those maladies, but would be liable to incur them if medicinally unprotected. It eliminates from the blood certain impurities which the most skillful pathologists assign as the exciting cause of those agonizing complaints, rheumatism and gout, and it is, moreover, an excellent remedy for an enfeebled or overwrought state of the nerves, and for mental despondency.

—The next term of the State College will open on Wednesday, September 8. The State College offers unusual advantages in tuition and in the completeness of its course. The indications are that the coming college year will be the most prosperous in its history.

Medical.

THE WONDER

Is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.

MESSRS. C. I. HOOD & CO.: Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. And I attribute this improvement in her condition largely to your Sarsaparilla. She has taken six bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,

A. L. HINCKLEY,
No. 264 Broadway, Lowell, Mass.

Hood's Sarsaparilla.

Sold by all druggists. Price $1; or six for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

A REMARKABLE OFFER!!!

PHILADELPHIA PRESS FREE!!!

To anyone who will SUBSCRIBE for the

"Bellefonte Republican"

FOR ONE YEAR, sending us two dollars in advance, we will present them with the PHILADELPHIA WEEKLY PRESS for ONE YEAR FREE.

THE "PRESS"

is one of THE BEST papers in the State, and this offer presents the

VERY BEST OPPORTUNITY

ever offered by any Centre county paper. An important campaign is coming on and it is our desire that the Republicans of this county shall have every opportunity to know all that is transpiring, and from the best sources. The PRESS will be

STAUNCHLY REPUBLICAN

UNDER — ALL — CIRCUMSTANCES,

abiding by, and earnestly supporting the action of the Republican Convention (State and National). We have this assurance from the publishers.

To our OLD SUBSCRIBERS who will

PAY UP ALL ARREARAGES,

AND

ONE YEAR IN ADVANCE,

we will also send the two papers. But

All Arrearages must be Paid

UP TO THE VERY DAY THE TWO PAPERS ARE TO BE SENT.

All Republicans in Centre County should avail themselves of the advantages of this offer.

SUBSCRIBE NOW.

OUR CUSTOMERS

Express themselves as being well pleased with our

NEW SYSTEM OF DOING BUSINESS,

And as we are also pleased it is not likely that we shall ever do a

Big Profit and Long Credit

BUSINESS AGAIN.

Any farmer that is worthy of credit can borrow money at 6 per cent. and then pay the merchant cash, and save at least 20 per cent., and then if you buy goods at a cash store you don't pay for another man's credit. We have proven beyond question that you can save money by paying cash. A credit store can talk about selling their CASH CUSTOMERS cheap, but they can't do it, and a person with ordinary intelligence knows they can't, and any one that don't know why they can't, we can enlighten them upon the subject. Our experiment has been a success; who knows it better than our customers? We have a Large and Complete Stock for the SPRING TRADE.

Our terms are Cash, and positively not over thirty days to responsible parties.

Orders mailed or telephoned will be shipped promptly.

H. K. HICKS & BRO.,

WHOLESALE AND RETAIL DEALERS IN

Hardware, Stoves, Paints,

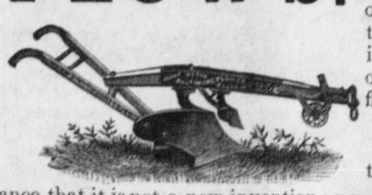
OILS, GLASS, AND

HOUSE-FURNISHING GOODS.

Farm Implements, and Fertilizers.

FARMERS SUPPLIES!

PLOWS.



Thorough plowing and pulverization of the soil is the foundation upon which the successful farmer builds his prosperity. To accomplish this, the character of the plow becomes a matter of the first importance. We present the

"Roland Chilled Plow"

to our farmer friends with the assurance that it is not a new invention; nevertheless, it embodies all the improvements known to plow manufacturers. It has an established and enviable reputation, of MANY YEARS STANDING, as being the best bevel land side plow now in use. We assure our friends that a BEVEL LAND SIDE PLOW is superior to any straight land side plow.

The ROLAND CHILLED PLOW is manufactured of the best material, and is of the most perfect workmanship. The parts subject to wear are so chilled as to give strength as well as durability.

Its construction warrants light draft, and it runs so steady that a boy who can drive the team can man the plow—either for two or three horses—and execute the best mechanical plowing.

It will clean or scour in any soil from the start. It is furnished with solid or slip-pointed shares for ordinary or deep plowing. It is equally a successful plow in soft, hard or gravelly soil, and will turn a furrow up hill as complete as on the level ground.

We invite a critical examination of the construction of this plow as well as a thorough test in plowing.

We offer it for sale at remarkably low prices, and on liberal terms.

We keep a stock of shares and other parts for the OLIVER and SYRACUSE Chilled Plows.

CULTIVATORS.

THE

HENCH RIDING CULTIVATORS

are the farmers favorite, and need no commendation from us. We are the authorized agents for their sale in this part of Centre county. The CHAMPION is the new Hench walking cultivator, a remarkably neat and well constructed implement, and is a credit to the skill and workmanship of these leading cultivator manufacturers. We invite those in want of cultivators to inspect those on exhibition at our store. We can assure our friends that there are no other cultivators in the market equal to the HENCH.

One-horse Cultivators and Shovel Plows that defy competition in prices.

HAY RAKES.

We are selling the

CHAMPION

horse hay rake for $16.50, and a better rake for $17.50. We sell the

TIGER SELF-DUMP

hay rake, which is the best hay rake in the world, at astonishingly low prices.

HAY TEDDERS.

The large crop of grass now growing, will be hard to handle unless farmers use hay tedders. The

BURDICK

HAY TEDDER is the BEST.

HAY FORKS! Double Harpoon Hay Forks. Price, $1.25 each.

GRAIN DRILLS.

We are the authorized agents for the sale of the CHAMPION and PENNSYLVANIA GRAIN DRILLS. These drills are complete in construction, and are guaranteed to sow grain, seed and fertilizers in the best farmer-like manner. We are prepared to furnish these drills at prices which will justify farmers in buying them. Farmers in want of drills will promote their interests by calling on us and examine the drills and prices for themselves.

Buggies and Platform Spring Wagons.

A customer after examining our spring wagons, a few days ago, said we had the best wagons for the least money he had seen in Centre county.

Auburn Road and Farm Wagons.

These wagons are made to our order; with steel skeins or steel axles, and we offer them to our customers with full confidence that they are the best wagons ever sold in this vicinity.

Fruit Evaporators. The outlook for a large crop of good fruit is very favorable. A fruit evaporator does not cost so much money, nevertheless, it can be made more profitable than a cider mill. An elegant opportunity for families of two or three boys to learn a new business and make some money. Call and examine the sample at our store.

FERTILIZERS.

We sell six grades of fertilizers; we assure the farmers of Centre county that we deal in no shoddy goods. In purchasing, the quality is our first consideration and we guarantee every grade of fertilizer we sell is of the quality represented.

CROCKERS' BUFFALO HONEST FERTILIZER

of which we are Sole Agents in this territory, needs no commendation at our hands. It has always realized to the farmer a fair equivalent for the money invested.

In addition to the above we have arranged for the balance of our stock with the Chemical Co. of Canton, located in a suburb of the city of Baltimore, Md.

This company is composed of the Bakers of Baltimore, who formerly conducted the business in their own name and is a house of undoubted reputation for furnishing exactly what they represent.

From this company we obtain five grades of fertilizers—

Dissolved South Carolina Bone,
Dissolved South Carolina Bone and Potash,
Soluable Alkaline Bone Phosphate,
Resurgam Guano and
Bakers Standard Guano;

either of which is of the highest standard of quality in its class.

We sold this brand of DISSOLVED SOUTH CAROLINA BONE or ROCK in the vicinity of the Pennsylvania State College last fall—1885—in competition with two other brands, all of which were analyzed at that institution. The Rock we sold proved to be fifty eight cents per ton more valuable than one of its competitors, and four dollars and forty eight cents per ton more valuable than the other, all of which were sold to the farmers at about the same price. This fact should induce farmers to buy fertilizers from dealers who know what they are selling and have the common honesty to sell what they represent.

We invite a careful inspection of the quality of the fertilizers we offer for sale, as well as the prices of the same, including such information as we are always prepared to furnish thereto.

HYDRAULIC CEMENT.

We have been induced to enter into the cement business, for the reason that MR. WILLIAM SHORTLIDGE'S long connection with the Water Works of Bellefonte gave him an extended opportunity to see the effects of using poor and standard cements. We can assure our customers that the cements in which we deal are of uniform quality and of the highest standard of excellence.

We carry a stock of

AKRON, ROSENDALE "Hoffman Brand," and the ENGLISH PORTLAND.

The AKRON has been manufactured during the last 60 years and has been used in the construction of some of the most elaborate Railroad bridges and reservoirs in the United States. Thomas Collins, the well known railroad contractor, informs us that he has used thousands of barrels of it, who recommends it as being a most excellent article. The AKRON cement is being used in the construction of the Croton aqueduct, which will convey water forty two miles to the city of New York. This of itself, is a sufficient guarantee of its superior quality.

We sell the ROSENDALE cement "Hoffman Brand," which is so well known that it needs no commendation at our hands. We keep in stock the ENGLISH PORTLAND cement, the best artificial cement in the world.

We exercise our best judgment in purchasing stock, and spare no efforts to furnish what we represent and trust the community will appreciate our motives by favoring us with a share of their patronage.

There is a growing practice of venders calling on farmers to sell them their supplies, who succeed in obtaining higher prices for what they sell, with dinner and horse feed thrown in, than the same articles can be purchased of us at our store. We invite farmers to investigate this matter, examine articles and prices before making up their minds to purchase. Visitors are ALWAYS WELCOME whether they buy or not, and WE TAKE PLEASURE IN EXHIBITING WHAT WE HAVE TO SELL

Come In and Talk With Us.

Office and Store Opposite the BUSH HOUSE.

Further Particulars Regarding Mr. Tilden's Death.

YONKERS, August 4.—Ex-Governor Samuel J. Tilden died suddenly at 8.50 a. m., to-day at his country residence Greystone, near Yonkers. His death, though possible at any time on account of his age, was entirely unexpected. For several months Mr. Tilden had enjoyed unusual good health for him and in the past six months had gained thirty-five pounds in flesh On Saturday he was taken with a slight chill while sitting on the porch over looking the Hudson river and was removed to his room where he was attended by his friend and physician Dr. Charles E. Simmons, of New York, who is stopping with his family on the neighboring estate.

The cold settled in his bowels and stomach, causing vomiting and purging. With medical aid he felt much better on Sunday and went out in his carriage. Monday and yesterday he also felt much better. Last night Mr. Tilden was taken again with the symptoms while in the parlor and was supported to his room by his valet and Private Secretary George F. Smith. On reaching his room the ex-governor experienced considerable trouble in breathing This alarmed his friends, and Dr. Simmons was called. The patient was suffering from nausea and diarrhœa, and was in great distress. The difficulty in breathing ceased after a while and he was placed in bed and later he was assisted to an easy chair.

Dr Simmons remained with him all night, and early this morning Mr. Tilden began to grow worse and was placed in bed. The generation of gases in his stomach and bowels distended them and caused a failure in the action of the heart. A second attack of the difficulty in breathing occurred and Dr. Swift, of Yonkers, was called in for consultation. He arrived at Greystone at 8 o'clock, but Mr. Tilden was then beyond the reach of all medical skill. The physicians consulted together in whispers, but nothing could be done. No words were uttered by Mr. Tilden after Dr. Swift had arrived He remained perfectly conscious to the last, the labored breath grew fainter and more feeble and at 8.45 a. m. the face of the dying man began to change and the ashen pallor of death slowly crept over his countenance, his eyes slowly closed and his muscles relaxed and at 8.50 a. m. he breathed his last. At the time of the death the only persons in the room were Drs. Simmons and Swift, Miss Anna Gould, a relative, the amanuensis of the dead statesman, and the faithful valet. The members of the family who are out of town were at once notified by telegraph of the sad event and are expected here to-night. The feeling of regret is universal.

Arranging for the Funeral.

YONKERS, August 5.—This morning Greystone is thronged with friends of the statesman, Samuel J Tilden. Last night the body was embalmed by Franklin A. Hiby, the undertaker in charge. The body now lies on a catafalque in the southwest corner of the second story of the building. The parlor is being heavily draped with morning.

The funeral services will be held at Greystone on Sunday morning at 10 o'clock, after which the remains will be taken to Lebanon, Columbia county, for burial. The officiating clergy and pall-bearers have not yet been definitely decided upon. The undertaker informs the Yonkers *Statesman* that the remains will appear in full dress and to-morrow they will be put in a double casket, now being made for the purpose. The outside casket will be Spanish red cedar, covered with black silk plush. The inside casket will be copper lined, with tufted satin, with a full length glass cover.

The lid of the cedar casket will be lined full length, the inside being tufted satin. The handles and mounting will be of solid silver, oxydized. On the outside lid will be a solid silver plate, bearing the simple inscription in script. "Samuel J. Tilden." At New Lebanon the casket will be placed in a self-locking water and burglar proof steel grave vault, which will be encased in a marble grave vault.

LATER—The remains of Ex-Governor Tilden rest to-night on a catafalque in his sleeping room on the second floor in the southwestern part of the building. The casket will be ready for use to-morrow night. The body will be clothed in a full dress suit of black with standing collar and black tie. In the shirt bosom will be worn three plain hammered gold studs. Cuff buttons of the same metal will be worn in the cuffs.

After the body is put in the casket it will be carried down stairs and rested on a catafalque in what is called the blue room. The undertakers and assistants to-morrow drape the pictures, mirrors, chandaliers and lambrequins in the room in black cashmere. The countenance of the deceased statesman has not changed since death. The funeral arrangements were completed to-night. The pall-bearers have been selected and have notified the family by telegraph of their acceptance. Their names are John Bigelow, Secretary of the Treasury Daniel Manning, Samuel J. Randall, Smith M. Weed, ex-Comptroller Andrew H Green, George S. Miller, Charles A. Dana, Charles E. Simmons, William Allen Butler, A. M. Vanderfort Hon. Daniel Malone and John B. Trevor.

The officiating clergyman will be Rev W. J. Tucker, of Andover Theological seminary, who was formerly pastor of the Madison Square Presbyterian church, New York, where Mr. Tilden attended church when in the city The house will be opened to the public at 8.30 a. m. to give an opportunity to view the remains for the last time. The funeral service will begin at 9.45 a. m. They will be brief, using the simple burial service of the Presbyterian church. No address or eulogies will be given.

After the simple services are concluded the casket will be removed to a special train at Yonkers, consisting of the funeral car Woodlawn and three drawing room cars. The special car bearing the remains of Governor Tilden and family and friends will start at 11 20 a. m. from Yonkers. Rev. Mr. Tucker will go on the train to New Lebanon at 3 30 p. m. and the funeral service will be held at the Presbyterian church in the village, to be conducted by the pastor, Rev. R. W. Barill.

The interment will be in the cemetery attached to the church. The train will return to New York at the conclusion of the burial service, but most of the relatives will remain at the homestead at New Lebanon. Private Secretary Smith denied to-night that the will would be read on Saturday night, and under the circumstances he would not give any information on the subject. The house was closed at 3 o'clock to-night Mounted Policeman Reynolds, of the Yonkers police, was placed on guard over the buildings on the estate.

Briefs.

PITTSBURG, August 4.—A Baltimore & Ohio mixed freight train parted in the middle this evening east of Cumberland and came together again with great force. Three unknown tramps, who were stealing rides, were caught between the coupling and one of them killed instantly. The others were terribly crushed and one of them will probably die. The passengers were badly shaken up, but none injured. Among those on the train were Congressman Bayne, ex-Congressman Donnelly and Major Wm. A. Short.

FORT WORTH, Tex., Aug. 4.—Col. B. F. Smith has written to Gov. Ireland tendering the services of the Tenth regiment of Texas in case a call is made for troops to move on Mexico. Midlothian has actually enlisted a volunteer company while nearly every town in the state is awaiting commissions to form companies. Sober-headed Texans, while admitting that Texas cannot be benefitted by a war with Mexico, are strongly in favor of war. This feeling prevails among nine-tenths of the men in the northern part of the state.

LONDON, August 5.—Advices from Constantinople report an attempt to assassinate the grand vizier. That official was out driving Sunday afternoon in Halilagha and two shots were fired at him by a Tartar. Neither of the shots struck its mark. The assassin then pursued the carriage with drawn sword, with which he endeavored to strike the grand vizier. He was arrested and taken before the sultan at the Yildiz Kiosk. To his majesty the Tartar declared that the grand vizier had prevented him from securing justice, and implored him to hang the vizier.

WASHINGTON, August 4.—The bill granting an increase of pension to soldiers who lost an arm or leg in service, which was recalled by the house, was sent to the senate to-day with the verbal amendment which was immediately concurred in and the bill returned to the president

LONDON, August 4.—A dispatch from Constantinople states that the Turkish government's preparations continue unabated. Additional army corps are being rapidly formed for service in European Turkey.

WASHINGTON, August 4.—The president has recognized Salomon Foster as consul of the republic of Honduras, at Philadelphia, Pa.

DUBLIN, August 4.—Mr. Parnell, the Irish leader, arrived here this morning from London to attend the meeting of the Parnellite members of parliament, which is being held here to day.

AMSTERDAM, August 4.—A large number of the police have resigned from the force. They say that their duties had become onerous and distasteful. Fear of the mob is supposed to have been the chief cause of the resignation. The Dagblad asks the government to invite the powers to adopt general measures against the socialists.

WASHINGTON, August 4.—The senate to-day passed the bill extending the system of immediate delivery to all articles bearing immediate delivery stamps.

MONTREAL, Aug. 4.—Canadian Pacific authorities here have received word that the sailing vessel W. R. Flint has arrived at Vancouver, B. C., with the first cargo of tea to come by the railway She has on board 17,387 cases of tea, of which 8,387 will be distributed in Canada, 4,200 in Chicago, and 5,000 in New York. Three hundred new box cars have been ordered for the use of the railroad.

Governor Hill's Sorrow.

ALBANY, August 4.—Upon receipt of the news Governor Hill immediately sent the following dispatch:

STATE OF NEW YORK,
EXECUTIVE CHAMBER,
ALBANY, N. Y., August 4, 1886.

Colonel Samuel J. Tilden, Greystone, Yonkers, N. Y.: I learn with deep regret of the death of your distinguished uncle, Samuel J Tilden. I tender to you and the other relatives my sincere sympathy in your great bereavement. In his death the country loses one of her most eminent statesmen, and our own state one of its most illustrious men. Please inform me at your earliest convenience of the date which may be fixed for the funeral, as I shall endeavor to attend.

[Signed] DAVID B. HILL.

Governor Hill also issued an address to the people of New York state, announcing the death of Mr. Tilden.

Of course when a man is sound and well he don't care a copper for all the medicine on the face of the earth. He has no use for it. But when disease is eating his life out he wants the right prescription and he wants it right away. For that reason all that know what Dr. Kennedy's Favorite Remedy is turn to that for help, and it never disappoints them And it is just as beneficial to new friends as it is to old ones. Pleasant to the palate and gentle in its action.

One Withdrawn and Two Confirmed.

WASHINGTON, August 4.—The president has withdrawn the nomination of H. H. Beecher to the collector of customs at Port Townsend.

Among the nominations confirmed by the senate to-day were those o Isabella Campbell, to be postmaster at Blairsville, Pa., and Fitz John Porter to be colonel.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetation remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after testing its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 149 *Power's Block, Rochester, N. Y.* 18 11 1y

—It is said that the inmates of the city poor house in Lock Haven cost only 7 cents each per day.

WANTED PRACTICAL CANVASSERS of *experience* and *ability* in every township to handle a new and standard work of great *merit* and *value*.

THE MODERN FAMILY PHYSICIAN
—AND—
HYGIENIC GUIDE.

Specially prepared for family and individual use by three of Philadelphias most noted Medical Men and Sanitarians. A volume representing a vast expenditure of time and money, and embracing ALL DISEASES known to medical science with their proper treatment by specialists of world-wide reputation. How to Build, Ventilate, Light, Heat and Drain Houses; and Physical Culture, including a progressive course in Calisthenics and Swedish Light Gymnastics, are among the original features of this modern work. Every line and illustration, including Suberb Colored Lithographs never before equalled in this country, is new, and the book stands next to the Bible in value and importance in the house. Its Hygienic teachings will, if followed, save any family seven-tenths of their doctor's bills. Bound in one magnificent volume of nearly 1200 pages and over 300 Illustrations and NEVER APPROACHED for completeness and practical value. Send stamp for highest endorsements from the leading papers in America, descriptive circulars and full particulars regarding agency. Canvassers, capable of handling a heavy book of sterling merits and large and steady sale, will be given an opportunity unequalled for several years. Address,

JOHN E. POTTER & CO. Pub's,

ADDITIONAL LOCAL NEWS.

—Jupiter is the evening star.

—Thunder and lightning Thursday night.

—Make a vigorous war on the Canada thistle.

—Those store orders bother the *Watch man* fearfully.

—Ex-Sheriff Spangler has gone to Indiana county for cattle.

—There will be a big picnic at Penn Cave on Saturday, the 14th.

—The most important book to take with you to sea shore is the pocketbook.

—Martin V. Smith, of Tyrone, has been granted a patent for a gas producer.

—Johnny Ward, with the New York nine, is playing a great game of base ball.

—The schools in Millheim for the school year 1886-87 will continue six months.

—Keep your overcoats convenient. Prophet DeVoe predicts that August will be warm.

—Many papers are inserting the annual local about the wind blowing over the oats stubble.

—The Lutherans held an enjoyable sociable on Thursday evening at the home of Mr. Samuel Gault.

—Mrs. Reuben Valentine and family now drive a valuable new carriage horse, which Mrs. V. recently purchased.

—Geo. Kreamer, a native of Brush Valley, this county, died recently at Valley Falls, Kansas, aged 27 years.

—A private party from Philipsburg, consisting, of fifteen couples, picniced at the Nippenose Cottage, near Jersey Shore, on Thursday.

—A party was given Thursday evening at the home of Mr. and Mrs. Wilbur Reeder. Several persons were present from Lock Haven.

—More than 1,500,000 feet of lumber belonging to John Irwin & Bro., at Curwensville, was destroyed by fire Tuesday morning, the 3d.

—The employes of the Pennsylvania Railroad Company are said to be taking advantage of the new relief fund organized for their benefit in large numbers.

—Although the thunder and lightning storm on Thursday night aroused the citizens of this place to some extent, it did not give a fresh impetus to business.

—A man in Pittsburg has just patented a machine with which to blow window glass with compressed air, which, it is claimed, will revolutionize the business.

—From the Renovo *News*, of Tuesday: "A. Brockerhoff, of Bellefonte was in town a few minutes last evening. He stated that Andy G. Curtin would get the endorsement of Centre county for Congress."

—The initial I in a man's name is made J five times in six. For that reason it should be written plainly. The papers in other towns always print it W. J. Fleming when Mr. W. I. Fleming goes away from home.

—A. S. Anderson, of Reed's Gap, Juniata county, found ten of his sheep on Sunday evening, the 1st, lying dead in one of his fields. He thinks during the heavy storm on Friday evening, the lightning killed them.

—The Tyrone base ball nine played in Philipsburg on Tuesday, the 3d, and came off second best, and the Tyrone *Herald* is endeavoring to figure out how it happened. That's folly; the probabilities are that Philipsburg boys played the better game.

—That new crossing being constructed across Allegheny street at the corner of Bishop is being put down under the supervision of Cunningham and Bayard. It is said to be a durable and excellent kind of a crossing, much in vogue in the cities. Time will determine its adaptability for this thriving town.

—A long line of carriages occupied High street Saturday and within the residence of Mr. Daniel Garman a solemn silence prevailed. The Episcopal funeral service was said over the remains of the late Mrs. Garman by Rev. Dr. Clerc, of Philipsburg, who also spoke feelingly of deceased. Then the very large funeral procession followed the remains to their last resting place in Union cemetery.

—It don't do much good to kill flies at this time of year, but if the work of destruction is commenced early in March every blow will count. A writer makes the following computation regarding their rate of increase: "One fly on the 20th of March is represented by 300 on the 24th of April; by 300 times 300, equaling 90,000, on the 28th of May; by 27,000,000 on the 2d of July, and by 8,100,000,000 on the 8th of August." Just think of killing 8,100,000,000 flies by one stroke in March.

—Friday morning two milk wagons met on Allegheny street. The horses attached to these wagons did not seem to like one another very well and elevated their ears in quite an angry style. But the milk man on the down grade started his bell ringing first and kept it up for a long time. Meanwhile, the milkman on the up grade waited impatiently and then rang his bell longer than usual. The two bells sounded much alike and we dont believe the people in the separate houses were able to tell one from the other until they reached their doors.

Death of Mrs. Garman.

This community was greatly shocked on Wednesday afternoon by the announcement of the death of Mrs. Daniel Garman. Few people knew that she was ill. She had, however, been slightly ill since Monday, although her condition occasioned no alarm. At 11 o'clock on Wednesday morning she began to sink rapidly, and did not revive, her death occurring about 3 o'clock.

The cause of her death is said to have been an affection of the heart. The deceased was 52 years of age. Two sisters, Mrs. Hoffman and Mrs. Jonathan Harper, reside in town.

Mrs. Garman was the daughter of the late Mr. Allen Schroyer. She was a much respected lady, being kind and considerate to all who approached her. She was a member of the Protestant Episcopal church of this place, and was useful in church work.

Seven affectionate sons and two daughters will greatly miss their excellent mother, and their pleasant home will never again be just what it was to them while she was alive. The husband also deserves the earnest sympathy of all in the severe loss he has sustained. Beside these, there is a large circle of immediate relatives and friends, to whom Mrs. Garman was a principal figure in their social and domestic lives. They will drop many a tear in memory of the deceased.

The funeral was held last Saturday morning, at 10 o'clock, at her late residence.

The Great Question Settled.

At length the contract for erecting the new school building has been given. The school board met on Wednesday evening for the purpose of opening bids. There were eight or ten bids, some for parts of the structure and others for all. That given by Col. D. K. Tate was the lowest ($10,649.00) and the contract was given to him.

The building will be of brick, and will contain six school rooms, a large room for the High School and two recitation rooms, The Academic, or High School room will accommodate about 130 pupils.

The contractor is one of the most responsible and best builders in the State and as soon as he gives his bond and secures material the building will be commenced.

A Parting Conversation.

Wednesday evening a High street girl was bidding her gentleman friend farewell at the door.

"And you say you would die for me, George?"

"Die for you! Yes, a thousand deaths."

"You are a noble man, George."

"My darling, you dont know me yet."

"Well, dearest, I do not wish you to die for me, but I will tell you what you can do for me to show your affection."

"What is it, my darling? Shall I pluck the stars from the cerulean dome? Shall I say to the sea, ha! ha! cease to flow, for my love wills it? Shall I tell yon bright and inconstant moon that is glinting the hill tops with her light, that she must not shine on thy face too roughly—ha!"

"No, George, no," she smiling said, "I do not wish you to attempt such impossibilities. All I ask of you is this—"

"Yes, my darling."

"All I ask of you is—don't call again."

The Bids Received by the School Board.

The following bids for the erection of the new school building were received and opened by the board Wednesday evening:

W. T. Speer	$12,868.68
H. F. Bartley	11,700.00
J hn Facini	12,000.00
D. B. Kunes & Co	14,850 00
Fox & Miller	12,064.00
D. K. Tate	10,649.00
Hunter & Gault & H. S. Sayre	11,879.50

The bid of D. K. Tate being the lowest, the board awarded the contract to him.

The contract for heating and ventilating the building was awarded to Smead, Wills & Co., Elmira, N. Y., for $2,000.

—These changes in weather are unfortunate in some respects. For instance, there was Rev. J. F. DeLong. He left Lewisburg suddenly for Bellefonte, really forgetting to bring his dress coat along. He wore a thin black alpacca duster. This fact, he says, rendered him uncomfortable in the pulpit and rather cool when the polar wave arrived on Monday. Then R. M. Magee started off for Snow Shoe on Wednesday, wearing trousers of such thin material that, to use his own words for it, he "almost froze" in that high latitude. There was a slight frost on Wednesday morning in the vicinity of Philipsburg.

Another Sudden Death.

Since recording the death of Mrs. Samuel White, as it appears in another place in this paper, we have been informed that the event was very sudden and unexpected. She had been in her ordinary health the day before, but became suddenly sick and died before medical aid could arrive.

—An exchange says: "Drop a dime into Jay Gould's hat every time the clock ticks, and you will have some idea of his income." This may be a very interesting mathematical problem, but the great obstacle in its successful demonstration lies in the fact that our dimes would become exhausted before the clock had ticked more than one and a half times, which affords a fair idea of our own income.

Death of Col. Wm. P. Wilson.

Col. Wilson died at Warm Springs, Bath county, Va., early Friday morning. He had been troubled for some time with irregularity of the action of the heart and went from his home at Trenton, N. J., to Warm Springs, hoping for relief.

He was born in Potter township, Centre county, December 30, 1837, and was a son of Dr. W. I. Wilson and Mrs. Mary P. Wilson, and was therefore a lineal descendant of General James Potter, of the Revolutionary army.

Col. Wilson entered the army as 1st Lieutenant of Co. F, 148th Pa. Reg't., known as "the Centre county regiment," Sept. 1, 1862. He was promoted captain Nov. 13, 1863; major, December 2, 1864, and lieutenant colonel, March 13, 1865. But it was as an aid of Gen. Hancock that he won his honors as an officer. Subsequent to the war he served a number of years on Gen. Hancock's staff in the regular army. He married Ellen, daughter of Rev. Hugh Dickson, D. D., of Philadelphia, and soon after resigned from the army, and of late years has been in business with John A. Roebling Sons & Co., of Trenton, N. J. He leaves a wife and three children. His last public appearance was as one of the pall-bearers at the funeral of his much-lamented commander, Gen. W. S. Hancock.

Col. Wilson's military record is a priceless legacy to his children. Especially gifted for his duties; with a courage that never quailed amid the storm of shot and shell; with a topographic eye that never deceived him, he never failed to execute successfully any hazardous order ever given him.

Death of Mr. John Harper.

The above named gentleman, who died at 4.30 o'clock p.m. on Thursday, was the brother of Jonathan, William and Jared Harper, of this place, and of Simon Harper, of Centre Hall. The deceased lived near the latter place. He had been ill with *cerebro spinal meningitis*, and suffered greatly. His son, J. C. Harper, had been with him for several days and his brother-in-law, R. M. Magee, Esq., hastened to his bedside on Thursday when the sick man seemed to be rapidly sinking.

Deceased was about 60 years of age. His death, following so immediately upon that of the late Mrs. Garman, causes sorrow to many of the same circle of acquaintances, as the families are closely related.

Mr. Harper was a well-known citizen of the county. We believe he has one daughter living, and his wife still survives.

The funeral services were held at the house Sunday morning at 8.30 o'clock. Interment at Rebersburg.

Gifts to the W. C. T. U.

At a recent meeting of the Women's Christian Temperance Union, a resolution was passed, thanking Miss Annie Lyon for her generous gift of an organ, which is doubly prized as once belonging to her mother, an earnest worker in the temperance cause.

Also thanks were offered to Mr. and Mrs. Aiken for putting the instrument in good tune. It was most *timely* aid freely given and thankfully received.

The organ is now placed in the Rink ready to lend accompanying notes to the Gospel songs we hope to have sung in the good cause.

Any other contributions in behalf of the work will be as gratefully accepted.

It is Said—

That the cows would give better milk if kept in pasture.

That the Philadelphia *Times* neglected to say anything about Bellefonte in its issue of Thursday.

That some of the people of Philipsburg would like their town to be part of Clearfield county, and that others want a new county formed with Philipsburg the county seat.

That there have been more camping out parties this year than for many years previous.

It is Postponed.

Chairman Rynder, of the Greenback party, emerges once again from his Milesburg seclusion and announces the postponement of the Democratic-Greenback State Convention, as follows:

To the National Greenback Party of Pennsylvania: By the authority vested in me and the solicitations of many leading members of our party, the state convention of the greenback labor party is hereby postponed and will convene at Harrisburg on Thursday, September 16.

(Signed) T. P. RYNDER, Chairman.

—Our surprise that Tommy Flack, the little boy who fell in the race on Tuesday afternoon, was rescued alive was increased when we heard fuller particulars. The child says he was playing with other children on the south side of the bridge, where McCalmont & Co.'s agricultural implements are displayed, when he fell into the water. The other children were frightened and ran off without giving any alarm. The child floated under the bridge the entire width of a wide street and was not discovered until found floating in the stream on the north side of the bridge.

—Mrs. Samuel White, who resided on the Curtin farm near Bellefonte, died on Wednesday evening. Her age was 40 years and 4 months. The funeral took place on Saturday morning at 9 o'clock, the interment being at Zion.

—The contribution of John M. Ward, of this place, to *Lippincott's Monthly Magazine*, is being perused quite extensively. It is entitled, "Notes of a Base Ballist," and gives his experience in base ball, which began in 1877 in Renovo, then in Williamsport and later with the Athletics, of Philadelphia. Regarding the character of modern base ballists he writes as follows: "It is still a more or less popular belief that ball-players are an improvident and even dissipated set. This is not true, and does great injustice to a large majority of them. The player who squanders his salary as fast or faster than he gets it is now the exception. I feel perfectly safe in saying that three-fourths of the League players are increasing their bank accounts yearly. It has been my fortune to meet all kinds of people, and I say unhesitatingly that I believe ball-players *as a class* to be as well behaved as any other in the community."

—Most of the time during the two weeks just ending the evening have been suitable for outdoor pleasures and a large portion of the people have enjoyed the pleasant temperature outside, not going indoors until time to retire. As a consequence, the houses have presented a dark and gloomy appearance while outside all was festivity and excitement. Last night, however, and one or two evenings preceding, indoor life has been rendered the more attractive and the houses have been very bright inside. People on an eminence, Thursday evening, overlooking the town, might have imagined that there was a social gathering in each house, so brightly were the interiors illuminated.

—Harry Clabaugh, aged 17 years, residing in West Huntingdon, went in swimming at Fisher's dam Friday evening, the 30th of July, and in diving struck his head against a stump, inflicting a terrible wound from the forehead to the back of his head. He was picked out of the water in an unconscious condition and removed to a house on the island when Dr. Miller was hastily summoned. The doctor sewed up the wounds and remained with the boy all night. He was removed to his home on Saturday morning where he suffered terribly until in the evening when death came to his relief. The funeral took place on Sunday afternoon and was largely attended. *Huntingdon Globe.*

—On the 22d of September the G. A. R. of Huntingdon county will celebrate Grand Army day, when several posts from this county are expected to be present, including John W. Geary Post, No. 90, Philipsburg; Gregg Post, No. 95, this place; Captain R. M. Foster Post, No. 197, Lemont; Dr. Geo. L. Potter Post, No. 261, Milesburg; Grove Brothers Post, No. 263, Howard; Captain J. O. Campbell Post, No. 272, Pine Grove Mills; Samuel Shannon Post, No. 282, Centre Hall; Lieut. W. W. Bierly Post, No. 298, Rebersburg; General Harleman Post, No. 302, Eagleville, and Sergeant William I. Furst Post, No. 419, Stormstown.

—The second Quarterly Meeting for Pennsvalley charge will be held at Centre Hall, August 21 and 22. The M. E. church, at same place, having undergone repairs, will be reopened at the same time, Rev. D. S. Monroe, D. D., of Bellefonte, is expected to be present to preach. All neighboring ministers and their congregations are cordially invited to be present. ISAAC HECKMAN, Pastor.

Wives! Mothers! Daughters!

BE YOUR OWN PHYSICIAN! A lady who was for years a sufferer from Female Complaints and weaknesses, so common to her sex, and despaired of being cured, finally found remedies which completely cured her, after all else had failed. Any lady can use the remedies and cure herself, without being subjected to a medical examination. From gratitude she will send FREE, Recipes, Illustrated Treatise and full directions, *sealed*. Address (with stamp), MRS. W. C. HOLMES, 658 Broadway, N. Y. (*Name Paper*).

18—11—1y.

—If the estimate of the State Geologist is correct, the frigidity of our winters need not cause alarm among the natives for centuries to come, lest our supply of fuel should run short. In the neighborhood of 5,000,000,000 tons of unmined coal in this commonwealth ought to be sufficient to warm up the people for several hundred years at least.

Don't give up, there is a cure for catarrh and cold in head. Thousands testify that Ely's Cream Balm has entirely cured them. It is a safe and pleasant remedy. It is not a liquid or snuff. It cures by cleansing and healing. Price 50c. at Druggists.

Ex-mayor R. H. Townley, Judge T. F. McCormick, E. H. Sherwood, Banker; J. Maguire, Banker; G. S. Davis, Banker, and J. O. Tichenor, Merchant, all of Elizabeth, N. J. earnestly commend Ely's Cream Balm as a specific for catarrhal affection.

—On Monday evening, the 2d, two small children of a man named Mantelle, residing at Lewistown Junction, were so badly scalded by the upsetting of a boiler of hot water that they are not expected to recover.

A Walking Skeleton.

Mr. E. Springer, of Mechanicsburg, Pa., writes 'I was afflicted with lung fever and abscess on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King's New Discovery for Consumption, which did me so much good that I bought a dollar bottle. After using three bottles found myself once more a man, completely restored to health, with a hearty appetite, and a gain in flesh of 48 lbs."

Call at J. ZELLER & SON'S drug store and get a free trial bottle of this certain cure for all lung diseases. Large bottles $1.00.

—People who go to Lock Haven complain that the streets in that city are not well lighted at night and that pedestrianism on its thoroughfares after dark is quite disagreeable. We suggest that if Lock Haven people would like an enjoyable promenade that they can come up to Bellefonte on the 5.20 p. m. train and have a three hours' ramble before the train returns at 8.55 p. m.

"You may remember I spoke to you about having been afflicted with severe sick headaches. Well, some time ago I began using Dr. Kennedy's "Favorite Remedy" in faint hope of relief. To my delight, and rather to my surprise, I have never had an attack since. How thankful I am I need hardly tell you. I heartily wish that all women tortured in this way knew how certain and pleasant a cure "Favorite Remedy" is. Sarah J. Woodruff, Newburg, N. Y.

—Another paper is talked of, to be located in either Centre Hall or Spring Mills. By all means there should be a newspaper in every town and village in the county. "Competition, etc., you know.

Thousands Say So,

Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers.' Electric Bitters are the purest and best medicine known and will positively cure kidney and liver complaints. Purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctors' bills every year. Sold at fifty cents a bottle by J. ZELLER & SON.

—And now it is said Andrew Carnegie, the millionaire, is going to build a real Scotch castle on his property near Cresson Springs. It will be the only one of the kind in this country.

The nervous, brain-working type of people, such as lawyers, clergymen, business men and students are the principal victims of hay fever. Sufferers may be certain that hay fever does not arise from an impure state of the blood. A local treatment is the only way to cure it. Judging from results, Ely's Cream Balm is the only specific yet discovered.

—Chas. Striker, a resident of Beech Creek, was robbed of $45 while at Hugh McLeod's Custer House, on Jay street, Lock Haven, on Wednesday night.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises Sores, Ulcers, Salt Rheum, Fever Sores, Tetter Chapped Hands, Chilblains Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25c. per box. For sale by J. ZELLER & SON.

—Philipsburg and Tyrone marksmen have recently been having a very lively contest for the Championship and at present Tyrone is ten points ahead.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c, I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D New York City.* 17 45 1y

AN EXTRAORDINARY OFFER.

To All Wanting Employment.

We want Live, Energetic and Capable Agents in every county in the United States and Canada, to sell a patent article of great merit, ON ITS MERITS. An article having a large sale, paying over 100 per cent profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents and the fact that it is an article that can be sold to every householder, it might not be necessary to make an "EXTRAORDINARY OFFER" to secure good agents at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its salability by any agent that will handle it with energy. Our agents now at work are making from $150 to $600 a month clear and this fact makes it safe for us to make our offer to all who are out of employment. Any agent that will give our business a thirty days' trial and fail to clear at least $100 in this time, ABOVE ALL EXPENSES, can return all goods unsold to us and we will refund the money paid for them. Any agent or general agent who would like ten or more counties and work them through sub-agents for ninety days and fail to clear at least $750 ABOVE ALL EXPENSES, can return all unsold and get their money back. No other employer of agents ever dared to make such offers, nor would we if we did not know that we have agents now making more than double the amount we guaranteed; and but two sales a day would give a profit of over $125 a month, and that one of our agents took eighteen orders in one day. Our large descriptive circulars explain our offer fully, and these we wish to send to everyone out of employment who will send us three one cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work on the terms named in our extraordinary offer. We would like to have the address of all the agents, sewing machine solicitors and carpenters in the country, and ask any reader of this paper who reads this offer, to send us at once the name and address of all such they know. Address at once, or you will lose the best chance ever offered to those out of employment to make money. RENNER MANUFACTURING CO., 116 Smithfield St., Pittsburg, Pa.

CONSTIPATION!

There is no medium through which disease so often attacks the system as by Constipation, and there is no other ill flesh is heir to more apt to be neglected, from the fact material inconvenience may not be immediately felt from irregular action of the bowels. When there is not regular action the retention of decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing piles, fistula, headache, impure blood and many other serious affections. BURDOCK BLOOD BITTERS will immediately relieve, and one bottle positively cure or relieve any case of Constipation.

"Was troubled for a year with torpid liver and indigestion, and after trying everything imaginable used BURDOCK BLOOD BITTERS. The first bottle revived me and the second cured me entirely."—J. S. Williamson, Rochester, N. Y.

17 48 1y

THE NARROW ESCAPE

Of a Massachusetts Engineer.

Sleep after fatigue and health after disease are two of the sweetest experiences known to me. Fourteen years is a long time to suffer, yet Mr. Peter Lawler, of Dalton, Mass., had led a miserable life for that period through the presence of stone in the bladder. He did obtain temporary relief, but nothing more. Last January he called on Dr. David Kennedy, of Rondout, N. Y., who said, after an examination: "Mr. Lawler, you have stone in the bladder. We will first try DR. DAVID KENNEDY'S FAVORITE REMEDY before risking an operation." A few days later the following letter

DALTON, Mass., Feb. 6.

DEAR DR. KENNEDY: The day after I came home I passed two gravel stones, and am doing nicely now. PETER LAWLER.

Dr. Kennedy now has the stones at his office, and they are sufficiently formidable to justify the claim that KENNEDY'S FAVORITE REMEDY is the leading specific for stone in the bladder. In his letter Mr. Lawler mentions that FAVORITE REMEDY also cured him of rheumatism. The subjoined certificate tells its own story:

OLD BERKSHIRE MILLS, DALTON, Mass., April 27, 1882.

Mr. Peter Lawler has been a resident of this town for the past seventeen years, and in our employ for fifteen, and in all these years he has been a good and respected citizen of this town and community. He has had some chronic disease to our knowledge for most of the time, but now claims to be, and is, in apparent good health.

CHARLES O. BROWN, President.

$1 bottle; 6 for $5. All druggists.

Dr. David Kennedy's "Favorite Remedy" (Rondout, N. Y.)—It is not a mere soother, temporarily, of pain, but by its alterative action purifies the blood, restores a healthful condition to the diseased organs, and even dissolves and causes the expulsion of gravel and stone from the kidneys and bladder. The testimony of hundreds who have been cured by it vouches for this.

Rogers' Grapoline!

This preparation is a mild and gentle saline cathartic, alterative and tonic. It is most carefully prepared in the form of a snow white powder, containing all the medical properties of the GRAPE and other fruits. It will promptly cure Costiveness, Dyspepsia, Heartburn Sick Headache, Indigestion and all Inflammatory complaints where a gentle, cooling cathartic is required. Give this remedy one trial and it will convince you of the above facts. Prepared by A. H. ROGERS & CO., Geneseo, N. Y.

SOLD BY ALL DRUGGISTS.

Local Department.

—What shall the Bohemian oats harvest be?

—Sunday was about as perfect as any day can be.

—The fine crop of weeds in the school house yard has been harvested.

—Phineas Squires, an aged citizen of Philipsburg, died on Thursday morning.

—It is said that the boom of Al. Dale, Esq., for district attorney is getting along amazingly well.

—If the Democrats voted as much as they drank last Saturday they were well represented at the polls.

—The Juniata Valley Editorial Association will go on an excursion to Cleveland, O., on the 26th inst.

—When four young ladies sit all alone under a tree eating a big water melon watermelon-choly spectacle it presents.

—The Lutheran church will be closed during all of this month, as August is their regular time for a pastoral vacation.

—The Wilkesbarre nine is at the head of the State base ball league, Altoona second, Williamsport third and Scranton fourth.

—Our reliable friend, Mr. Harry Hoover, of Dix Run, manages three farms and has already stored away fifty tons of hay this summer.

—The funeral services, on Sunday morning, over the remains of the late John Harper, were largely attended and were very affecting.

—Mr. B. W. Shipley, of near Unionville, is building a snug little barn this Summer. The structure is a model of its kind in neatness and strength.

—Recent improvements in the way of new boardwalks have been made in front of the residence of S. T. Shugert and that of Chas. Cook, on Spring street.

—Dr. J. W. Youngman, of Williamsport, died at the Harrisburg hospital on Sunday of paralysis of the heart. He was visiting Harrisburg when he became ill.

—The store of Sechler & Co., on High street, is closed to-day in consequence of the death of Mr. Sechler's father, who resides near Williamsport in Lycoming county.

—We hear that the man whose knee cap was so severely fractured by being thrown from the bar room of a hotel on Saturday has been sent to the city for medical treatment.

—Mrs. Hester Mitchell, relict of James Mitchell, died at the residence of her son, Daniel Mitchell, near Woodland, in Clearfield county, on the 4th inst. Her age was 71 years, 3 months and 26 days.

—Evidently, the three licensed places in Bellefonte have been doing a large business the past week as it is generally remarked that drunkenness has again become about as prevalent as it ever was.

—A reunion of the One Hundred and Twenty-fifth regiment, Pennsylvania Volunteers, will be held on Thursday, the 23d of Sept., during the encampment of Huntingdon county soldiers, on the Driving Park Association.

—There is already a spirited contest in Huntingdon for the position of postmaster. The term of the present incumbent expires on the 11th of December. Col. John S. Miller, of the *Monitor*, is one of the candidates.

—From the Philipsburg *Journal*: "A Bellefonter named Parsons predicted snow, Tuesday. Better chain that fellow up. There is no telling what harm he may do a community by going around predicting snow storms in August."

—It is believed that there will be from 25,000 to 30,000 people in Lewisburg on Grand Army day, September 9. The excursion to leave this place will be one of the largest ever organized here. More than 100 Grand Army posts have been invited.

—Of all the vines we see, that growing over the porch of Wilbur Reeder's house seems to cap the climax. The porch was built only this Spring and already the vines have climbed up every pillar of the porch, and are bursting into lovely blossoms.

—The funeral of the late Col. Wm. P. Wilson, whose death at Warm Springs, Va., was recorded on Friday, took place from the residence of ex-Gov. Curtin in this place on Tuesday afternoon at 5 o'clock. The remains arrived here on Tuesday morning.

—The second annual bush meeting of the Messiah church, of Union township, will be held in what is known as Bush Hollow, in the grove belonging to William Resides, commencing Thursday, August 26, and ending on the 29th. All are invited to attend.

—We are requested to caution certain parties who parade through the street at night after 11 o'clock, singing songs and making other noises. We have not heard it and don't believe we would object to it, but there are people whose sleep is disturbed by the noise. So we advise all such parties to abate the nuisance, or the vigilant police may make arrests.

Sabbath-day Services.

So far as we are aware, the Reformed church, the Methodist church and the Roman Catholic church were the only places of worship open for regular church services on Sunday. The Lutheran people neglected to give public notice that their church would not be open, and several persons who expected to hear Rev. Chas. Steck were disappointed.

In the Methodist church it was the time for the regular quarterly meeting. In the morning the church was comfortably full, which means five or six hundred people. Rev. D. S. Monroe, D. D., officiated and in his opening prayer touched a popular chord of sympathy in an appeal in behalf of those who, during the previous week, had been bereaved by the entrance of death into their households.

We cannot do justice to the reverend gentleman's discourse. The communion service was to follow the sermon and his text was chosen from St. Luke 22:25-30 and, of course, had special reference to that solemn occasion. The entire discourse pointed to the sublime idea that the commemoration of the Saviour's death in the bread and wine is a monument to his memory, more magnificent and enduring than could be any monument of marble or granite—"Do this in remembrance of Me." He spoke of the simple means used in the commemoration—the bread and the wine—and he told wherein consists the efficacy of partaking of the elements. Nothing could be more hearty or cordial than his invitation to the members of all the churches to assemble around the communion table, and the members of all denominations who were present accepted the invitation. The scene presented of members of all the churches meeting together in this commemoration was certainly very affecting and beautiful. Revs. J. A. Woodcock and Jas. P. Hughes assisted in the communion service.

At 7.30 o'clock p. m. perhaps the largest congregation had gathered in the church which it has known in its history. Many additional seats were brought in to accommodate the people and so early did the church fill up that we have no doubt that many late arrivals turned away. A quartette choir sang a pretty voluntary. The communion service of the morning was continued for the benefit of those who could not be present at its regular commemoration in the morning.

Rev. Geo. Penepacker delivered the sermon. His text was a striking one—"Though ye have lain among the pots, yet shall ye be as the wings of a dove covered with silver, and her feathers with yellow gold"—Psalm 68:13.

He had searched many commentaries to glean the real meaning of this text, and had failed until he read a work by Miss Watts, who had lived in Palestine. She described pots and other articles covered with soot and dirt which are often collected on the housetops, among which pigeons of beautiful plumage nestle without soiling their feathers in the least. From this resting place the pigeons will emerge and in the sunlight their pure plumage will reflect a brilliancy more beautiful than the rainbow. From this he drew instruction to prove that the fairest, most unsullied Christian character can develop in places seemingly least favorable for it, while from ornamented palaces and gilded drawing rooms may come forth those whose hearts are corrupted with the evils of this life. It was certainly very encouraging to those who, in the midst of adverse surroundings, are endeavoring to follow their perfect Master.

A Boom in the Iron Business.

The Bellefonte Iron Company are proceeding at once to the erection of their furnace. Mr. Jesse Stewart, the subcontractor from Mr. Witherow for the stone and brick work has given bonds for the faithful performance of that part of the work. The company are more than pleased with the quality of the ore they are mining and say it is the best they ever operated. They are taking new contracts, and Mr. Hart, one of the managers, came to town, with a 1000-ton order on Monday, and didn't think such a small order worth reporting. The stock of the company has advanced in the market to 105 and will reach 120 before long.

Mr. Chas. McCafferty has the contract for changing the course of the creek and will rush that work through by daylight.

"The rolling mill will be up and in operation in thirty days," said Mr. Hart. When we told him that was quick work he protested that 30 days is slow time in these days of telephones and Keely motors. The company evidently intend to wake things up in this section.

Aid Asked For.

BELLEFONTE, Aug. 10th, 1886.

Rev. J. J. Norris, pastor of the A. M. E. Church, received a message Saturday from his wife who is now visiting in Wilkesbarre, Pa., that his youngest child lay sick at that place. Immediately on Sunday night, the officers took up a collection from the congregation to send him at once to his family. The collection that was taken was merely enough to send him. Therefore we are compelled to call on the public for aid, knowing that they have never failed to give us an aiding hand whenever called to do so. The following persons will solicit the public: A. V. Jackson, Wm. H. Mills, L. C. Green, J. C. McDonnel.

A Private Picnic at Boalsburg.

On Wednesday, August 4, a picnic party from this place, made up principally of the sons and daughters and sons-in-law of Mr. and Mrs. J. H. Johnson, of Boalsburg, visited the latter place. The party was accompanied by a few outside friends, including Prof. D. M. Lieb, Mrs. Aaron Williams and brother, Mr. Fisher, of Indiana (who is the champion milk drinker), Mrs. W. I. Fleming, Robert Rhone and his sister Mary, Miss Kerlin, of Altoona, Miss Amanda Stover, of Zion, Messrs. McClure, Rodgers and Frain.

Such games as croquet, foot ball and base ball were among the amusements indulged in by the gentlemen, and the effect, it had upon them (perceptible in their walk) showed that they are not used to such hard play. The fact that three new base balls were entirely used up is proof that the game was a hotly contested one. The side captained by Charles Rodgers came off victorious. The other side, of which Musser, the butcher, was captain, came out way behind, except in foot balls. Abe Stover, making the best run, should have been carried off the field.

The ladies took with them an abundance of good things to eat which were partaken of with a relish in the shade of the apple trees in the orchard. Ice cream and cake with plenty of good rich milk disappeared as if by magic. Everything conspired to make the occasion one long to be remembered, especially by Alf. Baum, the driver, who likes an easy seat. The party all agree in calling it the best picnic ever attended by them, and much credit is due to Mr. and Mrs. Johnson, who did their best to make everything pleasant.

ONE WHO WAS THERE,

and came back all right.

To All Whom it May Concern.

TO THE PUBLIC:—In the *Watchman* of its issue, August 6, appears an item that all the Bellefonte Iron and Nail Company employes signed the statement addressed to Chairman Cooper "because they knew if *they did not they would be discharged*." The undersigned are employes of this firm and are of different political faith, but we hereby unsolicited and emphatically deny the assertion and say the *Watchman* has insulted every employe of the works and should be given a wide berth. Every name attached to that statement was done so voluntarily, and *not* "because we were afraid of being discharged." We further say that in our opinion the *Watchman* is an enemy to the laboring man, a stranger to truth, a falsifier of the rankest kind and the more such falsehoods appear in its columns the more votes it makes for Beaver. In the future if anything appears in that paper attempting to put us in the attitude of antagonism to General Beaver, let it be understood as a falsehood of the deepest dye.

A Bubble Bursted.

The denial in the *Daily News* of Wednesday of the very absurd and untrue allegations in the Philadelphia *Times* of the previous day, was further enforced on Friday by the strongest kind of testimonials. The Philadelphia *Press* contained two cards—one from the "Bellefonte Iron and Nail Company, Limited," who show conclusively that no order business is or ever has been transacted at their store or at their works, and another signed by all the employes of the firm averring that they receive their wages monthly, in cash, that the coupon system is merely a method adopted for the mutual convenience of all concerned, and that they prefer it to any other method.

The refutation is complete. The *Times* bubble is bursted before it is half developed. The particles have vanished into thin air. Poor *Times*, poor *Watchman!* Repair at once to the purifying surf of Cape May. Soak yourselves thoroughly. Then perhaps you may be fit for admittance into respectable society on the same basis with codfish and tripe.

—For about two weeks there was a hitch in the arrangements to build a nail works in Lock Haven, but now the work is being pushed forward with energy. The *Express* says "the location selected is on land belonging to Major Jefferes, situated on the east side of Pine street, below the canal, between the P. and E. passenger depot and Blackburn, Bickford & Co.'s saw mill. There are about five acres of land, which was purchased for $1,000, the money being contributed by generous residents of the First ward. All the arrangements for going on with the construction of the mill have been completed and as soon as the engineers of the Bald Eagle Valley railroad make a survey for a switch, which will be done in a few days, the mill will be staked out and the work of erecting the buildings begun."

Laid to Rest.

The funeral services over the remains of the late Col. Wm. F. Wilson occurred from the residence of his brother-in-law, ex-Gov. A. G. Curtin, at 5 o'clock p m. on Tuesday. The massive stone residence was full to the doors at the hour when the services began. The spacious porch, the wide pavement and even the opposite side of the street were thronged with people who could not gain an entrance to the house. In the centre of the large parlor was the casket. An air-tight metalic coffin was within a superb hard wood case covered with black cloth. Over this was placed the stars and stripes, in honor of the distinguished military career of the deceased.

Many floral tributes of wreaths and pillows were contributed by friends from a distance. A beautiful wreath was from the Loyal League of Pennsylvania, and a superb floral pillow from friends at Trenton bore upon it the inscription "Peace," in red. Three other beautiful wreaths were also among the gifts of flowers.

Rev. Dr. Dixon, of Trenton, read an address of much beauty and effectiveness, eulogistic of the deceased, dwelling especially on his many excellent qualities of mind and heart. The address was a feeling and beautiful production, read in a subdued tone of voice, yet with a distinctness and power which rendered his words easily understood in all parts of the house. Many eyes were wet with tears as they listened to the eloquent, sympathetic words. Rev. Dr. Hamill, of Oak Hall, followed in an invocation to the throne of grace in behalf of the sorrowing family and friends.

This ended the services at the house. The twelve pall bearers bore the casket from the house to the hearse. Among them were four distinguished citizens of New Jersey, viz., Mr. Henry C. Kelsey, Secretary of State of New Jersey; Mr. H. S. Little, Receiver for the Jersey Central Railway; Mr. John Hall, of Trenton, and Mr. Clark Fisher, of Trenton. The others—citizens of this county—were: Col. McFarlane, Col. D. S. Keller, Lt. Col. Fairlamb, Major Geo. E. Boal, Capt. Odenkirk, Lt. Col. Geo. A. Bayard, D. F. Fortney, Esq., and Dr. Jas. Thompson. A detachment of Company B, under Lieut. Geissinger, moved to their position near the hearse as a guard of honor. Following these was a long line of veterans, members of Gregg Post, G. A. R., with muffled drum beating

"Funeral marches to the grave."

There were 20 or 30 carriages, all containing friends besides many persons who walked to the Union cemetery on Howard street. At the grave the service was conducted from the Grand Army ritual and was imposing and solemn as such ceremonies always are. Three salutes were fired over his grave. In addition to the four pall bearers mentioned, other gentlemen who came on the special car to attend the funeral were Col. Thompkins, of Baltimore; Allen H. Dickson, of Wilkesbarre; Fred. S. Dickson, of Philadelphia, and a Mr. McClure. The special car with the funeral party was taken away by the 8:55 p. m. train.

The Beaver Club.

A temporary organization of the Beaver Club of Bellefonte was effected on Tuesday evening in the office of Hastings & Reeder. Mr. H. C. Weaver was elected temporary chairman and H. H. Harshberger, Esq., secretary.

The following committees were appointed:

On Permanent Organization—J. E. Musser, R. C. Harris and C. P. Hewes.

On Military Organization—D. H. Hastings, H. S. Hale and Amos Mullen.

On Room—L. L. Brown, Chas. F. Cook and Dr. Geissinger.

On Resolutions—W. F. Reeder, E. R. Chambers and Jno. G. Love.

On Music—Jno. Musser, Thos. Donachy and W. W. Bayard.

The Club is now one hundred strong. The next meeting will be held on Friday evening in the same place, unless the committee, before that time, selects a permanent place of meeting.

Gov. Curtin's Position.

As the exact attitude occupied by ex-Govenor Curtin in the proceedings of Tuesday afternoon of the Democratic county convention is of interest, we copy verbatim the action in reference to him:

On motion of C. L. Herlinger, ex Gov. Curtin was nominated for Congress by acclamation.

On motion of Gen. Blair, Major J. B. Fisher, of Gregg township; Balser Weber, of Howard borough; and Col. C. L. Herlinger of Philipsburg, were elected congressional conferees, and also that in case ex-Gov. Curtin should peremptorily decline to have his name presented to the Congressional conference for renomination, said conferees are hereby instructed to present the name of Major J. L. Spangler as the choice of the county for Congress and to use all fair and honorable means to secure his nomination.

—Major Geo. E. Boal, of Centre Hall, is mentioned as prominently as anyother candidate for the Republican nomination for prothonotary. He is a gentleman of wide experience, good business qualifications, an expert penman and of much influence. Doubtless, if the nomination is offered to him he will accept it and will poll a large vote. There is such an abundance of good material for this office that the party need not go amiss in its selection.

Personal Pencilings.

Miss Emma Bechdel, of this county, is the guest of Miss Waddle in Lock Haven.

Rev. Geo. Penepacker, of Tyrone, was an arrival on the 9.32 train Friday morning.

Miss Ollie Mitchell, daughter of Mr. James Mitchell, is visiting friends, at Pine Grove.

Miss Arnold, of Williamsport, is a guest at the home of Mr. Jacob Heylman, on East Curtin street.

John Laurie is selling the combination ironing board and step ladder manufactured by Bush & Buck.

Mr. D. I. Garman came home from Philadelphia on Thursday to attend the funeral of his mother.

Berry B. Kramer has been appointed U. S. storekeeper and gauger for the 12th district of Pennsylvania.

S. M. Woodcock, Esq., and wife, of Altoona, are visiting Mr. W.'s brother, Rev. J. A. Woodcock on Linn St.

Rt. Rev. Asst. Bishop Rulison will visit Philipsburg on Tuesday, the 31st, and will officiate in the Episcopal church there.

Mrs. Geo. P. Bible and Miss Lizzie Bible departed on Thursday for Williamsport, where they will visit Mrs. Ed. Kitzmiller.

Mr. John Rankin, Jr., has returned from Clearfield county much improved in health and has resumed his position in the bank.

J. T. Orndorff and wife, of Westminster, Maryland, are guests at the home of their relative, Rev. D. S. Monroe, D. D., on Linn street.

Mr. VanGilder, one of the especially agreeable young gentlemen in the employ of Montgomery & Co., departed for Williamsport on Thursday to visit relatives.

Misses Jennie B. Jackson and Henrietta W. Jackson, the charming daughters of the late Col. Clarence B. Jackson, of Berwick, Pa., are guests at the home of Wilbur F. Reeder, Esq.

Miss Carrie Askew, of Altoona, who has been the guest of Mrs. H. K. Hicks, departed on Wednesday. Miss Askew is a graceful and expert tennis player and gave new zest to the game while here.

Messrs. Wilbur Harris and Charley Richards departed Saturday for a trip to the sea shore, including all the principal resorts along the coast. They will also visit New York and Philadelphia ere their return.

Mr. and Mrs. Charles Gray, who are among the very agreeable people residing at Scotia, this county, are visiting at the home of Mr. R. M. Magee on Penn street. Mr. Gray favored this office with a call Friday morning.

Another installment of youthful visitors arrived on Friday evening to take up their abode temporarily at the home of Mr. and Mrs. Wilbur Reeder. They are Misses Grace Thompson, of Phoenixville, and Lizzie Harris, of Lock Haven, and Messrs. Will Harris and Al. McCormick, of Lock Haven. They, in company with other young ladies and gentlemen, visited Penn cave Saturday.

The three Misses Olewine—Mary, Katie and Minnie—who reside on the corner of Willow Bank street and Reynolds Avenue, are entertaining two young lady guests, viz., Miss Susie C. Siegmund and Miss Amanda C. Barner, of Salona, Clinton County. The visitors are handsome and talented young ladies, being skilled musicians and possessing other accomplishments, and together the five young ladies are enjoying themselves immensely with music and other diversions of a similar character.

Harry C. Baney and Frank Kline, of Philipsburg, spent Sunday and Monday, the 1st and 2d, in Bellefonte, visiting friends, having driven over the mountain on Saturday and returning Monday evening. Harry is one of our town boys who went to Philipsburg some two months since to take the temporary management of the hardware store of J. M. Hale & Co., of that place. His exhibition of the knowledge of the hardware trade and his general business qualifications during the absence of the general manager has secured for him the position of chief salesman in that large establishment. As we recommended Harry to the people of Philipsburg when he first went among them a stranger, we are pleased to know our estimate of the man has been highly appreciated.

Mr. Chas. H. Pierce, of this place, went at 5.20 o'clock Saturday afternoon to his parents' home in Dunkirk, N. Y., for a visit previous to his departure for the extreme Northwest to reside permanently. He expects to depart about the 25th inst. from Dunkirk, going over the Canadian Pacific R. R., to Tacoma, Washington Territory. He will engage in the lumber business at that point with Mr. Dudley Blanchard, formerly of Lock Haven. Mr. Pierce, during the past two years, has been a law student in the office of Orvis, Bower & Orvis. He is a young gentleman of great intelligence, pleasing manners and strict morality and, with the aid of a good business education, is well equipped for success in the vocation which he enters under such favorable circumstances. This community will regret to part with him and all who know him will be glad to unite with the REPUBLICAN in wishing him prosperity.

Col. Hastings is in Philadelphia.

Mrs. O. L. Hoover returned from the sea shore on Monday evening.

Ex-Gov. Curtin arrived in Bellefonte on the 9.32 mail Monday morning.

John A. Woodward, Esq., of Howard, spent Saturday in Williamsport.

Mr. Guyer Mattern will probably be the next prothonotary for Centre county.

Miss Antoinette Anderson, of Pittsburg, is a guest at the hospitable home of Dr. Rhone.

Judge Mayer, of Lock Haven, spent Monday in Bellefonte transacting important business.

Mrs. Mary R. A. Boyd, of Washington, D. C., is visiting at James H. Rankin's residence on Thomas street.

Miss Lyde Holt, who has been visiting in Bellefonte for about ten days, departed for her home in Philipsburg on Friday.

Mr. James Woomer, the good-looking manager of the Bellefonte Telephone Exchange, Sundayed at his home in Philipsburg.

Mr. Fitzgerald and family have moved into the north side of the pleasant double frame house near the corner of Lamb and Spring streets.

James P. Coburn, of Aaronsburg, and Prof. Osmond, of State College, were among those whom we noticed in Bellefonte Monday morning.

Mr. John J. Johnsonbaugh, of this place, and Mr. Wilson Gardner, of Rock Spring, called Saturday morning and remembered us in a substantial manner.

Mr. J. H. Derr, of the Bellefonte electric light station, went to Philipsburg Saturday to give the people of that town a few points in the modus operandi of putting in electric light.

Major S. W. Hill and wife, of Pittsburgh, are visiting Mr. and Mrs. Austin Curtin, at Roland. Major Hill is a member of the staff of Gen. Beaver, commander of the Second brigade, N. G. P.

Editor Bumiller, of the Millheim *Journal*, really came to town Tuesday. He says he wasn't in town the other time we said he was here. But this time it was his original agreeable self and no mistake.

Rev. Dr. Monroe and his guests, Rev. J. A. Woodcock and relatives who are visiting him, Mr. and Mrs. Aikens and several others went to Penn Cave on Monday. It is unnecessary to say that they had an enjoyable time.

Gen. Beaver is winning new laurels in the West and is among the most honored of all the great military men now attending the National Encampment. He responded to a toast, "Women in War," on Thursday, with great eloquence and feeling.

Mr Frank Bible, the bright and accomplished editor of the *Centre Democrat*, was ill during three days of last week. We hope he will soon be able to resume his duties again, as he is the most forcible and scholarly news-paper writer in Bellefonte.

Mr. Joseph H. Wolford, of near Unionville, has taken unto himself a wife and has also assumed charge of the farm. He will manage the business for his father. The young man deserves success in all his efforts and we are glad to learn that he is getting along so prosperously.

Miss Henrietta Davis, of Mifflin county, after several weeks visit at the home of Mr. and Mrs. R. M. Magee on Penn street, departed Tuesday evening. We believe she tarried during Tuesday night at the home of Rev. Geo. Penepacker in Tyrone and continued her journey to Mifflin county Wednesday.

Miss Blanche Showers, the bright and accomplished daughter of Mr. W. C. Showers, of East Beaver street, came home on Tuesday after ten days visit with friends at Harrisburg and Millersburg. Miss Oberholdzer, a friend of Miss Blanche living at Millersburg, came home with her and will be her guest.

Mrs. John Smith and her niece, Miss Ella Ford, of Waterloo, Blackhawk county, Iowa, have been guests at the home of Mrs. Elizabeth Jacobs and Miss Florence Jacobs, on Lamb street. Mrs. Jacobs is a sister of Mrs. Smith and Miss Florence Jacobs is a cousin of Miss Ford. To-day Miss Jacobs accompanies her aunt and cousin to Philadelphia, to remain several days.

Miss Bella Rankin, the bright and accomplished daughter of Mr. James H. Rankin, has returned from a visit to the sea shore. She brought home with her several acquaintances, who will be guests at Mr. Rankin's residence. They are Mrs. R. L. Furey, and son, of Philadelphia, and Mrs. H. R. Albertson and two children, of Atlantic City. Mrs. Albertson is the wife of the present city clerk of Atlantic City, N. J.

—Thursday, September 2d, will be the *last day* for the registration of voters. Let all active Republicans, vigilance committees, county committeemen, young Republicans and others interested in bringing out a full vote, see to it that every Republican is registered.

MARRIED.

QUICK—FYE—By D. H. Yeager, J. P., July 20, 1886, Mr. James Quick and Miss Matilda Fye, both of Snow Shoe.

TREVILLYAN—MARKLE.—At the Lutheran parsonage, Nittany, Pa., Aug 7th, by Rev. John Brubaker, Mr. Charles Trevillyan and Miss Emma May Markle, both of Hublersburg, this county.
